AMENDMENTS TO THE CONSTITUTION.

[Special Dispatch to Pittsburgh Gazette.]

HARRISBURG, May 18, 1871.

SENATE.

PASSED.

The supplement relative to the streets in Allegheny passed.

The Appropriation bill passed without further material amendment.

AFTERNOON SESSION.

CONSTITUTIONAL CONVENTION.

Mr. WHITE moved the consideration of the Constitutional Convention bill. Agreed to—yeas 14, nays 11—Mr. Buckalew voting with the Republicans.

Mr. DILL, Democrat, moved to make the day of election the second Tuesday of June, 1872, and Mr. DAVIS, Democrat, subsequently moved to make it the same day in 1873, but both motions were voted down by a party vote, the Democrats voting aye except Mr. Buckalew, who voted with the Republicans.

Mr. MUMMA, Republican, said he and his constituents were not very strong in favor of the Convention, and he objected to this particular bill because it recognized the cumulative system of voting.

After further discussion a motion to postpone was carried by a vote of 13 to 11, Mr. Buckalew voting in the negative with the Republicans.

COAL BILL.

Mr. GRAHAM called up Mr. Humphrey's House bill for the appointment of Commissioners to examine the condition of the bituminous coal mines.

Mr. BUCKALEW had it amended so as to remove restrictions as to the qualifications of persons to be appointed, and Mr. RANDALL also amended it so as to give the appointment of Commissioners to the Supreme Court instead of to the Governor, when the bill passed finally.

INTEREST.

Bill repealing the act for the protection of the contingent interest. Passed.

COMMITTEE.

Messrs. Purman, Davis and Connell were appointed a conference committee on the Appropriation bill.

HOUSE.

INSURANCE.

Mr. JOSEPHS' bill establishing an insurance department was debated all morning. The bill provides that the Governor shall appoint every three years, subject to confirmation by the Senate, an Insurance Superintendent, at a salary of $2,500, with five clerks. All insurance companies, home and foreign, shall make a detailed report annually to the Attorney General of their exact financial condition and standing, and the Attorney General and Insurance Superintendent shall have power to place all insurance officers and agents on oath. Financial statements must be published twice a month by all companies in the local papers of each political party wherever they have agents.

Mr. HUMPHREYS moved to strike out Insurance Superintendent and leave the whole matter in the hands of the Attorney General.

Mr. WHITE and others opposed the amendment, which was defeated, and the bill passed finally.

AFTERNOON SESSION.

The bill from the Senate on foreign merchandize passed finally.

APPROPRIATION.

Mr. STRANG moved non-concurrence in the Senate amendments to the Appropriation bill, that a committee of conference be appointed.

BORDER CLAIMS.

Mr. WHITE moved an amendment instructing the House conference committee against the Senate amendment relieving the Chambersburg sufferers.

Mr. CHALFANT raised a point that this motion was not amendable in this shape because it defeated the purpose of the conference, and after discussion the Speaker ruled the point well taken, and the Speaker appointed Messrs. Strang, Johnston and Hall a Committee of Conference.

MEXICAN SOLDIERS.

The bill granting Mexican soldiers the same pension as soldiers of the war of 1812 was defeated.

BILLS PASSED.

The bill from the Senate giving the Courts the power to fix the width of State roads passed.

A bill from the Senate relative to the Land Office titles was indefinitely postponed.

PARTNERSHIPS.

Mr. HUMPHREYS called up the Senate bill promoting industrial partnerships by allowing employees conditional interest in the business of individual firms and corporations without being liable for debts, which was passed.

SENATE BILLS.

Mr. MANN called up the Senate bill proposing amendments to the Constitution by striking out the sixth article thereof, and substituting the following: "A State Treasurer shall be chosen by the qualified electors of the State at such times and for such term of service as shall be fixed by law;" and by amending the fourth section of the first article so as to read "in the year 1873, and every seventh year thereafter, representatives to the number of 100 shall be apportioned and distributed throughout the State as follows: Each county shall have at least one representative, and the balance shall be apportioned among the several counties in proportion to the number of taxables. Every city containing a sufficient number of taxables to entitle it to two members shall be divided into separate and single districts, and no two counties shall be joined in the formation of a Representative District; and by striking out from the seventh section, first article the words: "But no city or county shall be entitled to elect more than four Senators."

All, after the provision for the State Treasurer, had been incorporated by the House Committee on Constitutional Reform.

Messrs. Strang, Reinœhl and Marshall opposed the House Committee amendment, because it would endanger the bill in the Senate, where, if the latter was insisted on, the Democratic majority might also vote down the proposition to make the Treasurer elective.

Mr. MANN, Republican, and Mr. SCHNATTERLY, Democrat, sustained the whole bill and after a discussion the House amendment was voted down by 36 to 53 and the first proposition was adopted unanimously as it came from the Senate, making the State Treasurer elective, and the bill went to the Governor.

INDIANAPOLIS.

Editorial Convention.

INDIANOPOLIS, Indiana, May 18.—The State Editorial Convention met at the Young Men's Christian Association Hall this morning. The attendance is much larger than at any previous Convention, nearly every member of the Association being present. Mayor Macauley, on behalf of the municipal authorities, welcomed the Delegates in an appropriate address, which was responded to by D. E. Caldwell, President of the Association. Letters were received and read from President Colfax and Hon. Jno. Defrees. The discussions to-day were on subjects pertaining to the profession and interest of the Association. Invitations were received from Messrs. Westly & Son, proprietors of the Bates House, to a banquet to-night, and from the Terre Haute and Indianapolis Railway Company to an excursion to the coal mines in Clay county to-morrow, both of which were accepted. W. P. Fishback, editor of the Indianapolis *Daily Journal*, delivered an address before the Association to-night; subject, "The Mission of a Newspaper."

OMAHA.

Fire.

OMAHA, Neb., May 18.—The Railroad Hotel at Rawlins, Wyoming, was burned to-day. The loss is estimated at $40,000.

MINING.

The silver mining prosperity continues. The yield is increasing throughout Utah Smelting and seperating works are being constructed, and it is probable the shipment of ore to distant points will soon cease. The streams in Montana are all full, and gold mining is active and very successful this spring.

U. S. SENATE.

EXTRA SESSION.

WASHINGTON, May 18, 1871.

Mr. SUMNER offered the following as an amendment to the rules: That all treaties with foreign powers be considered in public and open session, unles submitted on special confidence by the President or ordered otherwise by a special vote of the Senate.

Mr. CONKLING submitted an amendment, by adding, "and all other matter heretofore known as executive business." The amendments were ordered to be printed.

Mr. HARLAN moved that the Senate hereafter meet at ten o'clock.

Mr. SUMNER suggested to come here at 1:20 o'clock and stay till five.

Mr. HARLAN'S motion was agreed to.

Mr. HARLAN moved to go into executive session in order that the majority may come to a conclusion as to proceeding in the business before them. Motion disagreed to.

Messrs. White and Ramsdell were brought into the Senate by the Sergeant-at-Arms. Mr. White was brought before the bar of the Senate and refused to answer the questions relative to his obtaining a copy of the treaty on the ground that he would thereby compromise his honor, as communications for the press were often given in implicit confidence. If he violated it he believed he would make himself infamous in the eyes of his professional associates. He did not obtain the copy of the treaty from any Senator or officer of the Senate. It was not a Senate document. It was printed in folio pages with a single column on a page, and was printed by the Department of State. Forty or more copies had been printed by the Department. He was ready to go before the Commission and swear that he did not obtain a copy directly or indirectly, from a Senator or officer of the Senate, nor as far as he knew from any employee thereof.

Mr. SUMNER moved to strike out the words "confined in common jail." Carried—31 to 27.

Mr. WILSON moved to strike out the words "the Committee be authorized to sit during recess."

Mr. CHANDLER said he moved the examination be continued until it is found out who reports secret debates in the Senate for the New York papers and punished.

Mr. SCHURZ said he was glad to hear the voice of virtue from the Senator from Michigan, and thought the investigation should end, as the witness had sworn that he did not get the treaty from a Senator or an officer of the Senate.

Mr. CARPENTER offered a resolution that White be retained in the custody of the sergent at arms until he signified his willingness to answer, and in the meantime he be committed to the common jail, and that the Committee be authorized to sit during recess.

Mr. MORTON in order to test the sense of the Senate, moved to lay the resolution on the table. Disagreed to—25 to 36.

Mr. NELSON, alluding to Mr. Chandler's remarks said this was a singular proceeding The Senator wanted the committee to be continued in existence until they found out who did the reporting for newspapers in secret session. The Senator himself was one of those reporters to his personal knowledge.

Mr. CHANDLER exclaimed—Oh, no.

Mr. NELSON, resuming, said he had been here sixteen years, during which time proceedings in Executive Session had found their way to the press more or less accurate. The papers employ as correspondents men of intelligence, capacity and character. They are men who know the proceedings of this Government as well as Senators do. They understand what is doing all the time and know something of the history of the country. They are employed to find out what is being done, and give the people the news, before it takes place. The Senator knew that the Senators talks about what is done in secret session He (Wilson) talked with these correspondents in presence of other persons. It was no use for Senators to put on such virtue here and pretend to be what they were not. The truth was the Senators talked too much. The truth was the majority of the Senate were guilty of leaking. He had control of a press in 1848-49 and 50, when he learned that a public man would be judged by his duty life and not by little a spurt in political affairs, or by a little mistake. The best way for a public man was to do his duty and let the press say what it pleases and make no reply.

Mr. CHANDLER replied that it was said an honest confession was good for the the soul. He had always suspected Senators of being leaky. He was now sure the Senator felt better after his confession. He hoped others would likewise confess. He protested against the Senator confessing his (Chandler's) sins. He was glad the Senator had made a clean breast of it.

The Senate then voted on Mr. Wilson's amendment to strike from the resolution the power of the Committee during the recess, and decided the question in the negative—yeas 20, nays 30.

Mr. WINDOM offered an amendment, namely, that the Committee be required to continue their daily sessions until said witnesses shall come before them and purge themselves from contempt. Rejected; yeas 20, nays 32.

After some further proceedings, the resolution was amended so as to provide that if the Committee shall fail to assemble after ten days' notice that the witnesses are ready to answer the questions he reported to the Senate, the witnesses shall be discharged.

On motion of Mr. CONKLING it was provided that it shall be the duty of the Sergeant-at-Arms, when he shall be informed of the readiness of the witnesses, to notify each member of the Committee.

Mr. SUMNER inquired what had become of the correspondents of the New York *Herald*. He was a subscriber to that paper; his paper yesterday contained what purports to be protocols. If the *Tribune* had offended, so had the *Herald*. He submitted that the proceedings of the Senate should not be confined to one newspaper. If the *Tribune* had a good advertisement so should the *Herald*. The Senate ought to advertise in all.

Mr. CARPENTER said the Senate ought to bring the matter before the Committee.

Mr. THURMAN said the *Herald* was more guilty than the *Tribune*, for the State Department had not prepared for publication a synopsis.

Protocol amendments were severally offered by Messrs. Harlan, Thurman, Vickers and Casserly, and voted down. The resolutions offered by Casserly, amended as above stated, were then agreed to by yeas 34, nays 14.

A number of Senators having paired off and left their chamber, Mr. Ransdell and the other witness was arraigned when the questions he had refused before the Committee were read him by the Vice President.

Ramsdell having been sworn, declined to answer the question as to where and from whom he obtained the copy of the treaty, &c., for the reason must be apparent. Every honorable man having given his solemn promise not to reveal the name of the person for whom it was obtained, for to do so would cause him to forfeit his self respect, and sink under infamous in the eyes of his professional associates. He was willing to make oath before the Committee, or elsewhere, that he did not obtain it from a Senator or any officers of the Senate, directly or indirectly. He had no reason to believe the document came from a Senator. On motion of Mr. Carpenter a resolution war adopted, similar to that in White's case, by a vote of 24 nays, 11 nays. The Senate at 6:40 o'clock adjourned.

White and Ramsdell were taken in custody by the Sergeant at Arms, and provided accommodations in the room of the Committee on Pacific Railroads.

NEW YORK.

NEW YORK, May 18, 1871.

SENTENCED.

In the general sessions court this morning, the jury in the case of the notorious Dr. Loakup Evans rendered a verdict of assault on Ann O'Neil, and attempted manslaughter in the second degree. District Attorney Sullivan called for the full penalty on Evans as a man who for years led a life of infamous criminality. Judge Belford expressed his astonishment at twelve men supposed to be intelligent, remaining out all night after such clear evidence. From eight years experience in that court he believed Evans was the most consummate villian ever convicted there. He hoped all professional abortionists would take heed that neither their illgotten gains or alleged great influence would avail them in that court. His Honor then sentenced Evans to three years and six months in the State prison with hard labor, the full penalty.

R. R. MEETING.

The Executive Committee of the Cleveland and Pittsburgh Railroad, held a meeting here to-day. An application was signed by a large majority of the stockholders asking for a dividend of fifty per cent. this was presented and duly considered and a full meeting of the board was ordered for May 30, to act upon the required resolution.

RULOFF HANGED.

He Dies Game and Refuses to Acknowledge God to the Last.

BINGHAMPTON, May 18.—Edward H. Ruloff was hanged at 11:38 A. M. to-day, and met his death with the same nerve that he has exhibited from the hour of his arrest. He left no confession and made a denial that a confession has been made by him. Mr. Root, the Sheriff of Tompkins county, was to have the confession, for which Ruloff demanded $5,000, payable to his brother, but he would make it only by consent of that relative. That consent was asked, but Ruloff answered that he would rather pay $10,000 than receive a single dollar on any such condition, and positively refused his consent. This answer was reported to Ruloff, and he has not as yet told Root anything. That gentleman was in his cell at 12:30 this morning, but Ruloff never opened his lips concerning his past misdeeds. For a moment he seemed about to talk, saying "things about here will be all hurlyburly to-morrow, and I had better do all my talking to-night," but after a few rambling remarks of no consequence, he turned to his dictionaries and renewed his philological labors.

The Broome county jail stands about two hundred feet from the court house in a sort of a common, conspicuous and easy of access. Here all day long yesterday preparations were making for the scene of to-day. The clergymen visited Ruloff upon several occasions of late, but got little for their trouble. He never raised his eyes from his work to look at them, and positively refused to hold any converse with them.

Last night he was busily engaged upon his work, laboring until a late hour, after which he was induced to lay down and take a sleep, in which he seemed much in need of. He awoke this morning, was moderately cheerful, and ate a tolerably amount of breakfast. Ministers again visited him, but he declined their assistance and seemed unusually stubborn when they refused to leave him. Everything being in readiness for the execution, the condemned was escorted from his cell to the prison yard at 11:30 A. M. He bid an affectionate adieu to his acquaintances who had visited him during his confinement.

On ascending the scaffold the high sheriff inquired if he had anything to disclose, when Ruloff replied that he had not.

The rope was placed about his neck and just as the clock was striking twelve the signal was given, and the learned murderer fell like a lump of lead, and his soul passed from his body to the presence of its Maker.

FRANCE.

TOO HIGH LIVING.

PARIS, May 18.—The police authorities of the Hotel de Ville, with a guard of Franc Tireurs, descended upon Peters American restaurant on the Boulevard and arrested one hundred and thirty men and women who were there supping luxuriously.

THEIR OFFENSE

was that their extravagance was not in keeping with the times. Among those arrested were several superior officers of the Commune, whom it has been determined to punish for neglecting their duty for pleasure.

COMMISSION FOR THE ARMIES.

The statement that the Civil Commission is to accompany each army of the Commune is confirmed. This is for the purpose of preventing a military dictatorship, which the Commune fears will end in the return of the "Imperial Dynasty of Napoleon" to the throne.

SHELLING OF THE CITY.

Shells are falling over all parts of the city. Great fear is manifested by the Communist authorities of a revolutionary attack upon the Hotel de Ville, and the guards around that building have been doubled.

AN ATTEMPTED SURPRISE.

A special from Versailles says: Last night a large body of the insurgents advanced from their works in front of the ramparts of Paris and attempted to surprise the Government forces at Nuily.

ROUTED AT THE POINT OF THE BAYONET.

They were promptly met by the troops, who were fully aware of their approach, and after a sharp struggle were routed by a bayonet charge and driven back to Paris, leaving behind many of their numbel dead and wounded.

A STUDIED INSULT.

The destruction of the column Vendome by the Commune of Paris creates great indignation in military circles here, and is regarded by the soldiers as a direct insult to the army. A dispatch from Berlin, last night, says there was a

DISCUSSION IN THE GERMAN REICHSTAG

To-day, on the right of members to inquire into the acts of the Government, the Liberals were vehement in demanding this right. This is the first conflict between the German Parliamnets and the Government since the Reichstag met in session. The Southern members are exceedingly suspicious, and speak their minds plainly and with energy. The Reichstag sits for three weeks. There will be no Whitsuntide holidays.

WOMEN UTILIZED.

PARIS, May 18.—The *Times* special from Paris says the Commune has resolved to form a central club of women, for the purpose of disarming runaways.

CONSTERNATION AND PANIC.

The *Daily News* special from Paris reports great agitation among the people, and the distrust of the Commune grows universal. Arrests and becoming general. It is supposed that the Germans are about to send in their ultimatum.

A heavy column of troops are now pressing and a battle is hourly expected.

THE REPULSE AT NEUILLY.

A telegraph special from Versailles says a body of 10,000 insurgents attempted on Tuesday to surprise the Government forces at Neuilly, but were repulsed and driven back to their own lines.

Clement and Brunnel, members of the Commune, have been arrested.

The Committee of Safety appeal to the National Guards to secure the triumph of the Commune, and in so doing describe the fearful results which will come from their inactivity.

ASSAULT REPULSED.

Another attack was made on Wednesday on the Versaillists' position at Neuilly, but as on the previous day the assailants were repulsed.

ACTIVITY PREVAILS.

The Communist batteries are to-day bombarding the Versaillists' works at Chateau Beacon.

The Commune has directed Regault to make reprisals for all acts of cruelty perpetrated by the Versailles commanders.

It is reported that the Versailles troops have carried the Muett Gate of Paris by storm.

FEARFUL EXPLOSION.

The number of persons killed by an explosion of the powder magazine in the Avenue au Trocadero is variously estimated at from fifty to two hundred. A stock of cartridges which was immense, and a large amount of the neighboring property were destroyed. It is surmised that the explosion formed a part of the reactionary conspiracy against the Commune.

CANNONADE.

VERSAILLES, May 17.—The cannonade of approaches to Paris continues.

The Committee appointed by the Assembly to consider the treaty of peace, have proposed to the Assembly to exchange the territory of "Lets" for that stipulated, to be ceded to Germany, in the vicinity of Belforte.

FASCINES.

LONDON, May 18.—The Prussians are cutting Fascines between Rainey and Montfermil in the Department of the Seine eastwise, and are expected to make an attack on the east side of Paris at an early day.

ACCUSES.

The Communists' official *Journal* accuses the Versaillists of causing the cartridge explosion in the avenue Du Tradadero, but the *Venite* demonstrates that the explosion was solely the result of accident from the fact that no shell fell in the Camp De Mars at the time of its occurrence.

DIFFICULTIES.

The official journal of Versailles editorially dwells upon the difficulties in the way of establishing the mil centre against the insurgents of Paris. The article asserts that the government is striving to spare the innocent, and concludes by rebuking those who express impatience for the capture of the city.

THE ASSEMBLY.

VERSAILLES, May 18.—The Assembly has adopted the entire treaty as signed at Frankfort between France and Germany.

General Chanzy objected to the proposed territorial exchange but was answered by Thiers and General Ducrat who insisted upon the advantage of retaining and strengthening Belfort.

ENGLAND.

BUDGET CRITICISED.

LONDON, May 18.—In the House of Commons this evening Mr. Disraeli severely criticised the budget lately submitted by Chancellor Lowe of the Exchequer, reviewing the successive stages through which it passed since its introduction, reconstruction and subsequent revision. He obtained, especially, provisions relating to income tax and to customs, saying that it was now proposed to meet the increased deficiency in revenue, which would certainly be incurred by the abolition of the purchase of army commissions by another unequally desirable measure pending. The treaty for the adjustment of the American claims would also require an extra expenditure of the means which should all come from direct taxation of the people.

TURKEY.

CONSOLIDATED BONDS.

CONSTANTINOPLE, May 18.—It is reported that the Turkish Government is about to make a fresh issue of consolidated bonds to the amount of thirty million dollars.

SPAIN.

THE NEW LOAN.

LONDON, May 18.—The new Spanish loan has been introduced into the London market.

FINANCIAL AND COMMERCIAL.

LONDON, May 18, 4:30 P. M.—Consols 93¾. Bonds easier; 5-20's of '62, 90¾; do '65 90 do '67, 92¾; 10-40's 89.

FRANKFORT, May 18.—5-20's of '62, 96¾.

LIVERPOOL, May 18.—Cotton steady; middling uplands 7½d. California wheat 12; spring 11-4@11-6. Corn No. 2, mixed 35s; pork 63s; Beef 10.6s. Lard 51s. Cheese 66s.

NEW ORLEANS.

Mr. Greeley Speaks.

NEW ORLEANS, May 18.—The American Club entertained Mr. Greeley last night. Mr. Greeley made a speech, in which he said: This is my first visit to the South. I come here with a heart devoted to the good of all people. They are not my enemies now who were six or eight years ago. I bear hatred to no one. He believed the best men should occupy the best places without any reference to by-gones, for the peril which necessitated the exclusion of some men from the ballot box no longer exists. He opposed disfranchisement as no longer a necessity, and said there would not be any Ku-Klux in the land now if there had been general amnesty five years ago. It would have united the people and healed the wounds produced by the war. For that he struggled, and the time was not far distant when every American would have a fair chance at the ballot box and the majority would rule.

THE CAPITAL.

WASHINGTON, May 18, 1871.

THE WEATHER.

The barometer has risen somewhat on the Pacific coast accompanied by a slight increase in temperature. The weather remains unchanged at the Rocky Mountain stations. Light rains followed by clearing weather have been reported from Southern Illinois and the rain prevailing at New Orleans is now apparently confined to Northern Florida. Clear weather has generally prevailed on the Lakes and Atlantic coast although to-night on the Carolina coast the barometer is highest. The barometer is lower in Western Pennsylvania and pressure has fallen decidedly on Upper Lakes.

Probabilities.—A slight disturbance is apparently developing in Alabama and Georgia, and will probably move eastward. A similar disturbance, probably a severe thunder storm, is also probable in Minnesota. Pleasant weather will probably continue on Friday on the lakes, Atlantic and Gulf coast.

CHICAGO.

The Presbyterians.

CHICAGO, May 18.—A large part of the afternoon session of the Presbyterian Assembly was occupied with reading, revising and correcting the report of Commitees on Commissions, and the informal or deficient credentials are so numerous that the Moderator appointed a special committee to examine and report on the sufficiency of commissions at once, so that all qualified delegates might participate in the work of permanent organization. Pending the action of the committee nominations were made for Moderator, as follows: Rev. Geo. L. Prentiss, D. D., of New York; Rev. Z. M. Humphrey, D. D., of Philadelphia; Rev. Jonathan Edwards, D. D., of Baltimore; Rev. James Ellis, D. D., of Cleveland; Rev. Daniel W. Poor, D. D., of Oakland, California, and ex-Gov. Pollock, of Philadelphia. All but the first two nominees were permitted, at their request, to withdraw their names in case of Pollock's objection being made, he being a layman he could not constitutionally serve if elected. Pollock replied that he did not withdraw on that account, and held himself qualified and thought the issue about eligibility of laymen to be chosen Moderator would yet have to be adjudicated. Dr. Edwards said if that issue was to be sprung on the Assembly, he was ready to meet it and have it settled. Humphrey was elected by a very large majority. He was formerly, for nine years, pastor of the church in which the Assembly now holds its session. The organization was completed by the choice of Rev. Dr. Allison and Rev. Joseph E. Nassan as temporary clerks, by acclamation.

The report of the Committee of Arrangements, as amended and adopted, provides for the meeting at nine o'clock in the morning, with initial hour assigned to devotional services, the session to close at 12½ o'clock; reassembling at 2 o'clock, and adjournment at 5 o'clock.

Resolutions were adopted that it be the first order of the day for to-morrow, immediately after the announcement of the Standing Committees, to call for the reports of the Boards and theological seminaries, and to refer them to the appropriate Standing Committees, and that it be the order of the day to hear reports of the Standing Committees on the several Boards, as follows: Board of Education on Saturday next at 10½ o'clock A. M.; Board of Church Erection on Monday next at the same hour; Board of Freedmen, second order, after 10 A. M. Board of Publication on Tuesday; Board of Home Missions on Wednesday; Ministerial Relief Fund on Thursday; Board of Foreign Missions on Friday. All at 10 A. M. adjourned.

BIBLE UNION.

The American Bible Union reassembled this forenoon in the First Baptist Church. Addresses were made by the Rev. J. D. Fulton, of Boston, and Dr. W. T. Zeaman, of St. Louis, on the importance of the revision of the Scriptures. Dr. Wyckoff, Corresponding Secretary, proposed that a subscription be taken to raise one thousand dollars to aid in supplying the Book of Romans to every man in Italy. Subscription plates were placed before the audience and a collection taken up. Dr. Young, of Pittsburgh, and Dr. Miller, of New Jersey, made remarks on the distinctive features of the Baptist faith, and claimed a revision of the Bible of the Union as peculiarly a Baptist work. Adjourned.

BAPTIST HISTORICAL SOCIETY.

The Baptist Historical Society held its annual meeting this afternoon in the Michigan Avenue Church. All the officers were re-elected. The Secretary reported that at present there were in the library 5,185 volumes, 15,086 pamplets, 525 portraits, 19 views, 968 autographs and 675 manuscripts, with a quantity of the minutes of the Association, old and new. The report appealed to churches, associations, authors and publishers to deposit with the Society a copy of their publications. The paper of the day was read by Rev. Dr. Dailey of Chicago, containing a complete review of the denomination. In England, Ireland and Wales are 2,568 churches, with an aggregate congregation of 233,006; churches were being erected at the rate of one in every three days in January. There are 71 churches with an aggregate congregation of 134,680; in Sweden 1,203 churches with a congregation of 81,482; in Rome one church already exists. Baptist churches also exist in Denmark, Switzerland, Holland and Russia. In this country there are 17,445 Baptist churches. The church membership averages one to every 27. At the night session W. Evarts, Jr., read a paper on the Ana-Baptists. Adjourned *sine die*.

WOMEN'S FOREIGN MISSIONARY SOCIETY.

The Chicago branch of the Women's Foreign Missionary Society of the Methodist Church met this morning in Centenary Church, Mrs. Williams in the chair. The reports show that the Society consists of eight branches, with headquarters respectively at Cambridge, New York, Chicago, Philadelphia, St. Louis, Cincinnati, Baltimore and Atlanta—the last just organized. There are 330 auxiliary societies and 13,000 members. Schools are supported in Sanbohl, Gumbat, Assaria and Pavri. The work for the coming year takes in Nawab, Gungunze, Shummunga and Banzear. The society will send medical practitioners to Pavri and a missionary to Lucknow, and it supports Miss Sarah Wolston in Fuh Chow, China. It pays $800 in support of schools in Fuh Chow and $500 to Barrally Arphanage. The records of the branches show large and increased receipts and nearly equal expenditures during the past year.

SOUTH AMERICA.

The Insurgents.

ASPINWALL, via. KINGSTON, JAMAICA, May 18.—Manuel Diaz, commanding eight hundred insurgents, is marching on Panama, and is within nine miles of the city. The force is armed with Remington rifles and are prepared to offer a stout resistance to further the advance of the rebels. A battle is daily expected. The steamer Martijo has not yet been recaptured from the insurgents, and her present whereabouts is unknown. The wildest rumors are afloat and the greatest excitement prevails. The boiler of a steamer plying on the Megdalena river, while going to Lima, exploded. Fourteen persons were killed. The Government has ordered two new steamers to be constancted at Pittsburgh. The Guatemala revolution is without importance. President Buenos and two Generals have been delivered to the new gdvernment. They will be heavily fined and banished from the country. Nicaraugua has demanded from San Salvador the release of General Martineze on the ground that he is a citizen of Nicaraugua. The soldiers of Xatruch's army are returning, and will acknowledge allegiance to the new government of San Salvador.

NASHVILLE.

Accident to a Steamer.

NASHVILLE, May 18—The steamer John Lumsden, which left here last evening for Cairo, struck a bank during the fog last night about three miles from Clarksville and sunk up to her boiler deck. She had aboard a large lot of passengers, two hundred and twenty hogsheads of tobacco for New Orleans and six race horses for Springfield, Illinois. The Barkesville left for the wreck this afternoon. The *Banner's* special telegraph from Clarkesville says that no lives were lost by the sinking of the John Lumsden. The boat can be raised without difficulty. The tobacco and freight is saved in a damaged condition.

APPOINTED.

Governor Senter has appointed Mrs. Hanale Haskell, widow of the late W. T. Haskell, State Librarian.

BRIEF TELEGRAMS.

—The steamship Germania, from Hamburg hrs arrived at New York.

—Hon. John M. Francis, the newly-appointed Minister to Athens, will sail with his family for Greece early next month.

—Dr. Medlicott of St. Louis charged with poisoning Isaac Ruth at Laurence, Kansas, has been remanded to Prison for triae.

—The laying of the International Ocean Cable from Punta Rossa to Key West, Col. W. H Heiss, an American, general superintendant, is so far a perfect success.

—A dispatch received at Ft. Leavenworth yesterday from General Gordon Granger, at Santa Fe, states that the command at Fort Bascomb, surprised and captured twenty-two hostile Indians with seven hundred cattle and ponies near the Texas line.

—The clerks of the weather at Mt. Washington say that it is probable the weather will remain without material change, excepting diminished cloudiness at the Atlantic and Gulf coasts. Fresh, northeasterly winds may probably prevail on the lakes.

—Mr. Andrew Pierce, Managing Director of the Atlantic and Pacific Railroad, and Captain Brown, Mayor of St. Louis and President of the Missouri Pacific road, have gone to the end of the track of the former road to expedite track-laying at the point where the road crossed the trail of the Texas cattle, beyond Grand river. The bridge across Grand river, consisting of four one-hundred-and-fifty-feet spans, will be finished by the 1st of June.

—A Scranton special says the Convention of Delegates representing the miners of three corporations met yesterday. After two stormy sessions no definite action was taken. It is tacitly understood that the miners of the Delaware, Lackawanna and Western Company are at liberty to act as they think proper, and the intention was to have a general region meeting to-morrow, but owing to the intense excitement consequent on the murder, it may be postponed a few days. It is not to be expected that Briggs' shaft will be in operation to-day. If the experiment is renewed, an attack is predictod.

CHARTIERS ROAD.

Excursion to Washington—Formal Opening—A Pleasant Trip—Speech of Welcome—Eloquent Reply—The Speakers and What They Said—Hospitalities—Coming Home.

An excursion took place yesterday over the Chartiers Valley Railroad for the purpose of celebrating the opening of the track from Mansfield to Washington for passenger traffic. The excursion cars were advertised to start at a quarter to 10 o'clock but did not get under way for nearly half an hour after the time appointed. The platform at the depot was crowded by gentlemen invited to participate in the inaugural ceremonies, and when the train did start, thirteen cars were filled with representative men of this city and Allegheny. Among those present were the Mayors of both cities, members of both Common Councils, Fire Commissioners, Aldermen, other city officials, gentlemen representing all branches of the mercantile and manufacturing pursuits, representatives of the bar, the press, the medical and ministerial professions, and well known citizens generally.

The excursion was accompanied by the Great Western Band, which discoursed sweet music when it pleased, but which was very sparing in its performances, and was more sleepy than musical.

All along the route the day was observed as a gala occasion. At Canonsburg and all other stations along the line the inhabitants turned out in force to do honor to the excursion, and the people generally seemed to appreciate the importance of the event which was being celebrated.

The traveling was remarkably comfortable, proving the fact that the road is well graded and carefully laid, and the train was under the special charge of Mr. W. W. Card, of the Eastern Department, who showed the greatest interest in the excursion, and did all he could to make it especially comfortable to the passengers.

Many of those who occupied the cars were old residents of Washington county, or friends of those who having retired from business had taken up their residences therein. Among the old time Pittsburghers residing in that section of the county are many well known gentlemen—Messrs. David T. Morgan, George Morgan, Nicholas K. Wade and others. These all had many friends, and those who knew them best were glad to have such an opportunity offered of visiting them and congratulating them upon the recently accomplished facilities of intercourse with their friends and former associates, and the increased opportunities of traffic between their late and present homes.

At Mansfield a delegation of the Washington Committee of Reception, consisting of Chief Burgess Hazlett, Major John H. Ewing, Postmaster Wiley and other prominent citizens met the train and took seats in the cars.

Shortly after one o'clock the train arrived at Washington, and the excursionists were greeted with such an ovation as the town has never given to any party. The hills surrounding the depot were crowded, and from every house in the neighborhood the Stars and Stripes were hoisted in honor of the occasion. No excursion party was ever welcomed by bevies of more beautiful ladies. After the train had stopped the invited guests fell into line, and, headed by the Great Western Band, marched to the new Town Hall.

The building was soon crowded by the citizens and their guests. The meeting was called to order by Major J. H. Ewing, who nominated Chief Burgess Hazlett as Chairman.

Mr. Hazlett at once called upon Mr. George S. Hart to deliver a speech. The gentleman said as follows;

MR. HART'S SPEECH.

When the Almighty had created man in his own image, he invested him with a regal authority becoming the dignity of his high rank in the scale of creation, and gave him in the simple but comprehensive language of that great first chapter, "*dominion over all the earth.*" And man has ever shown himself greatest and worked out his great achievements in the exercise and assertion of his high prerogatives under that royal grant.

Especially and wonderfully true is this of the century in which it is our good fortune to live—a century whose history is an astounding record of brilliant and rapidly succeeding triumphs of genius, enterprise, and science over the stubborn and rebellious forces of subject nature.

I recognize, amid the upturned faces of this jubilant multitude of people, the venerable features of some of our more aged citizens, whose memories carry them back to the days when there were no railroads, no steamboats, no electric telegraphs, no steam power printing presses, none of the thousand and one practical processes and inventions, (each in itself a marvel, alike of ingenuity and utility), which in our favored time have contributed so much to the progress of society and civilization, to the multiplication of material wealth, to the economizing of time and space, to the relief of drudging labor, and severe and painful toil, and to whatsoever can add to the comfort, embellishment, refinement, and happiness of life.

What a contrast between to-day, and what are some times called "*The early days*" of this Western Pennsylvania! I see before me men, who remember—and remember better, perhaps than they do the event of yesterday—when merchandize was brought from the East over the then dreadful and somewhat mysterious "Alleghenies" on "pack horses," when men gazed with that respect which is always accorded to extra hardihood and courage, upon the brave packers who brought them their salt, and sugar, and calico and other commodities from the far off cities of Philadelphia and Baltimore, through all perils of the wolves, and bears, and panthers, and robbers, and hobgoblins of the mountains.

I see here among us men whose fathers reaped all their grain with sickles and transported their flour in flat boats and "Noah's arks" to New Orleans, and who hailed the cradle scythe as the very utmost perfection of human ingenuity; who spoke of "*the great National Road*" with as much pride and exultation as did the ancient Romans of their famous Appian Way, with its broad, paved and sixty-one miles in a straight line, "from Rome to Brundusium;" and whose hearts were stirred as by a prophecy of great things to happen in the near future by the completion of "*the Pittsburgh and Washington Turnpike Road.*" The prophecy is indeed, we may say, fulfilled, although, as usual, not in the manner expected. The era of turnpike roads has given place to what may be called emphatically *the era of railways*. The freight train, drawn by the iron horse, succeeds the huge six-horse wagon and team, that crept snaillike over the hills and valleys from Washington to the Smoky City; and the lumbering stage coach, that, with noise and clatter altogether disproportionate to its speed, labored and tumbled, and swung and creaked, and bumped along at the rate of four miles an hour, vanishes at last from our view, and in its place appears the gladly welcomed vision of the fire-fed locomotive, rushing with the speed of the wind and "the thundering force of a moving Niagara" over the long-expected, and now at length completed, "CHARTIERS VALLEY RAILWAY!"

I say, the "*long-expected Railway,*" Mr. President; for I am surprised to learn from this week's edition of one of our town papers that this very Chartiers Railway was originally projected by citizens of Washington; that the first impulse was given to it at a public meeting held in our Court House more than forty years ago, at which meeting the mover of the resolutions was the late venerable and distinguished Judge Baird; that a charter of incorporation was secured from the Legislature within a few months after the date of that meeting, and that a survey of the route was reported to the Company by the Engineer, Charles De Hass, of Washington, locating the road for the greater part of the distance on substantially the same ground on which it is now constructed.

Of all the men who figured prominently in that movement, designed, as Judge Baird then expressed it in his resolution, to "connect the National Road and the Pennsylvania Canal"—(both of which were doubtless considered at that day as among the great highways of the earth)—I say, of all the prominent men who participated in that movement, our venerable fellow townsman, Hon. Jno. H. Ewing, alone survives. I am glad to see Major Ewing among us to-day, hale and hearty, combining, as he does, in a remarkable degree, the gravity and wisdom of age with the elastic vigor of youth. *Him*, first of all, we congratulate upon the completion of the *Chartiers Valley Railroad*, though it has *not* been accomplished under the "*original*" charter, and even though the raging "*Pennsylvania Canal*" is not likely to receive much benefit from the "connection!" We congratulate him that his forty years of labor in procuring "*right of way and releases of damages,*" and in otherwise pushing on the great enterprise, have at length been crowned with complete, and I may add, without using too strong an adjunct, *glorious* success!

And, now, to you, gentlemen, the corporators, officers, stockholders, and friends of the Chartiers Valley Railway Company, who have paid us the compliment of an excursion visit over the road, which, in one source, your own hands have helped to build, I tender in behalf of the Burgess and Council, and of the citizens of Washington, their hearty congratulations and their equally hearty welcome to the hospitalities of our ancient borough. You have brought to our doors the boon we have so long desired. You have bound us by iron bands to the Iron City, and we trust the connection may never be severed or broken. You have put us once more in vital union with the great and busy world. You have opened to us again the highways of travel and commerce, and throughout all the veins and arteries of our local industries, we shall once more feel the healthful and reviving pulsations of active and vigorous life. For these great benefits we tender you our thanks and repeat our cordial welcome.

Fellow citizens, of town and country, let me congratulate *you*, also, upon this auspicious occasion; too long have we been isolated from the great world around us. And now that we are again in communication with the busy marts of trade and commerce, our sluggishness and listlessness must give place to energy and activity, if we would secure the full benefit of the great change, which has occurred and the still greater changes which are likely to occur to our business and other relations. We possess, as we justly claim, a region of country unsurpassed by any other of equal extent in the Union, for fertility of soil, beauty of scenery, healthfulness of climate, and richness of mineral wealth. It is, nevertheless, a statistical fact, that our population has remained stationary, or nearly so, for the last five decades, and that whereas fifty years ago Washington county was the fourth or fifth in the Commonwealth in respect to both population and wealth, the census of 1870 shows that she has declined to the rank of the *twentieth* county. Let us hope that this retrograde movement is now to cease, and that the *next* census will show us once more in the *ascending* scale. This will certainly be the case if the people are true to their own interests, and wisely avail themselves of the improvements already secured to them, and help with a liberal hand in the construction of others of the like kind. Railroads will benefit our agricultural interests by furnishing cheap, speedy and convenient transit and transportation to the great market, where the highest prices are to be had for all the products of the farm. They will enrich our country by developing and furnishing a ready market for her abundant coal and other minerals. They will attract both labor and capital to our borders to assist in the development and improvement of all our advantages and facilities for manufacturing, which have hitherto been almost neglected, simply because of our secluded position. They will in a thousand ways, encourage and stimulate the energies of our people and so contribute to the increase of our material prosperity and wealth. Finally, fellow citizens, the completion of this great enterprise, to be followed as it undoubtedly is, by others of a like kind, will prove to be a most timely boon to those institutions of learning and science in our midst, of which, our people have always been justly proud; but which, because of their being cut off from the great thoroughfares of modern travel, have languished, and are languishing, for want of sufficient patronage, which we fully believe will now flow in upon them in a generous, and enriching tide.

But, Mr. President, I trust other speakers are to follow me, and I will, therefore, no longer trespass on the patience of this audience. I close by repeating in behalf of the Burgess and Council, to our fellow-citizens of this and other counties here present, their heartfelt congratulations upon the happy auspices under which we are assembled, and by again extending to our distinguished visitors the assurance of our most hearty welcome to the hospitalities of the Borough of Washington.

MR. HAMPTON'S REMARKS.

At the conclusion of Mr. Hart's speech, Mr. John H. Hampton was called upon for a speech. He said: In behalf of the cities of Pittsburgh and Allegheny here represented; in behalf of the Common Council of Allegheny, represented by one of its chairmen; in behalf of the officers of the Chartiers Valley Railway, and the press of the city of Pittsburgh, I rise to thank the citizens of Washington for the hospitalities which they have been pleased to extend and the cordial welcome which we have received. This is an auspicious occasion, and it is meet that we should celebrate it. It is not an occasion for rejoicing over the success of an army which has vanquished its opponent, not to greet the return of victorious regiments from the field of battle; the triumph we meet to celebrate is one of the victories of labor, yes, of labor itself. Contrast the achievements we celebrate to-day with those of seventy or eighty years ago. Then the glory of our commonwealth was the completion of the great national road, and it was a glorious accomplishment, for which the first thanks were due to Henry Clay, of Kentucky. This was something great. Then came the great system of railroad and canals in 1856 connecting the Susquehanna with the Ohio, and then it was indeed thought that nature had been overcome, and that the ten inclined planes had placed the noble Alleghenies forever under control. This was a greater achievement. But to-day, and now, we celebrate a new era in the history of our State railroads, connecting a new portion of territory with the great roads of the east and the west, and opening up a new country as a field for commercial interests, an addition to the glorious enterprise of America which has connected by an Atlantic cable the golden sand of the Pacific with the mighty Atlantic ocean. What nation shows such a system of communication and intercommunication as does America. This great object in this district of country is now brought by a private enterprise. The glorious attempts of our Commonwealth proved a failure and it was left to the enterprise of private capitalists to accomplish the event we celebrate to-day. Such men as Mr. Ewing have accomplished this great object, and Washington today should be proud that he has lived long enough to see the completion of this—his fondest hope.

The speaker went on to state that the opening of the new road inaugurated a new era in that portion of Western Pennsylvania, and concluded a very eloquent speech by appealing to the citizens to do all they could by their patronage and traffic to make the road a success.

SPEECH OF MAJOR EWING.

Major Ewing was next called upon to address the audience, which by this time had filled every part of the beautiful Town Hall. Major Ewing dwelt at some length upon the previous attempts which had been made to carry through the road from Mansfield to Washington and made some interesting remarks as to the identity of the route surveyed forty years ago, and that which had now been completed. He paid an eloquent tribute to General Moorhead and Mr. Von Banhorst for their indefatigable labors in the interest of the road, and stated that to Edgar A. Thompson and other members of the Pennsylvania Road the town of Washington owed the completion of their long looked for road, connecting it with the centres of trade and commerce.

Major Ewing, in a very eloquent manner paid a tribute to the Iron City, stating that it was in truth a hive of industry, and predicted that the connection of Washington, by [illegible] bands, with the city of Pittsburgh must be conducive of much good to the town, and concluded an earnest and characteristic speech by rejoicing in the completion of the road which he had worked for forty years, and [illegible] kindest terms of welcome to the guests he saw around him.

DINNER.

The party then adjourned to the Fu[illegible] House, where an excellent dinner had been provided for the excursionists gotten up in [illegible] host's best style.

A number of prominent citizens and offi[illegible] partook of the hospitality of Harry Smi[illegible] the St. Charles Hotel of this city) at his lovely country residence near the Depot. Harry did the best he could to make everybody at home, and he succeeded to the fullest. A vote of thanks to him was proposed on motion of Mr. Keenan, seconded by Mayor Callow. Harry was too modest to return thanks.

RETURNING.

About four o'clock the excursion train started from Washington and in due time arrived in this city. The trip was one of the most pleasant that ever started from Pittsburgh, and when another such takes place "may we be there to see."

It is in truth, a piece of rare good fortune, and a great gain for both Germany and America when we have residing among us an Embassador intimately acquainted with all the phases of German life, speaking our language fluently, and deeply versed in German science and literature. In these circumstances misunderstanding can hardly occur, and opportunity is afforded of correcting many false impressions and removing many prejudices which exist, even on the other side of the Atlantic with regard to our country.

NEW ADVERTISEMENTS.

To Iron Manufacturers.

Proposals for a First-Order Iron Light-House, to be Erected at Southwest Pass, Mouth of Mississippi River, Louisiana.

TREASURY DEPARTMENT, OFFICE OF THE LIGHT-HOUSE BOARD, WASHINGTON, May 15, 1871.

Sealed proposals will be received at this office until one o'clock of Friday, the 9th day of June, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary to construct a first-order iron light-house for Southwest Pass, Louisiana, in accordance with the accompanying specifications and drawings.

The same to be delivered, at the expense of the contractor, on board of a sea-going vessel or vessels, at any sea port nearest to the manufacturer's workshops, and accessible to such vessels.

The Light-House Board will provide all the timber work, bolts, and concrete for the foundation pier, the glass for the lantern, the lens, lamps, and furniture belonging thereto, and their cost is not to be included in the amount of the bid, but the contractor will be required to furnish all the wood-work above the foundation pier, and the cost thereof shall be included in the amount of the bid.

The bid should state the sum for which the ENTIRE WORK, as shown on the drawings, will be completed, fully erected at the workshops, and then taken down after acceptance, and delivered as aforesaid, and should also state the day and date on which it shall be so completed and delivered, under forfeit, as specified in the "Form of Bid."

The work will be carried on under the personal supervision of an agent of the Board, and all facilities must be afforded him for inspecting the material and workmanship. Such parts of either as are not in accordance with the drawings and specifications must, in case of rejection, be made good at the expense of the contractor.

The Board reserves the right to reject any proposal for any reasons it may deem sufficient.

Each bid must be accompanied by a bond, signed by the bidder and two competent sureties (certified to be such by some officer known to the Treasury Department), in the sum of twenty thousand dollars ($20,000), that, in the event of the acceptance of such bid, the necessary contract will be entered into within ten (10) days after notice is given by the Board that the bid has been accepted.

Bond and security, in the sum of twenty thousand dollars ($20,000), signed by two competent bondsmen for the faithful performance of the contract, will be required.

A copy of the plans and specifications must be inclosed with the bid, as evidence as to the object of the proposal.

All proposals must be signed, sealed, and indorsed "Proposals for a light-house for Southwest Pass, Louisiana." and then inclosed in another envelope and directed, prepaid, to Rear-Admiral W. B. Shubrick, Chairman of the Light-House Board, Treasury Department, Washington, D. C.

Any bidder may be present and witness the opening of the bids at the time and place hereinbefore specified.

Payments for the work will be made quarterly, upon estimates certified to by the agent of the Board; but twenty (20) per centum of the amount of each estimate will be withheld until the satisfactory completion of the contract.

Plans, specifications and forms of proposals may be obtained from Lieutenant Colonel J. C. Duane, United States Engineers, Portland Maine, and at 13 Exchange street, Boston, Massachusetts. Lieutenant Colonel I. C. Woodruff, United States Engineers, Tompkinsville, Staten Island, New York; G. Castor Smith, Esq., Assistant Light-House Engineer, southeast corner Sixth and Walnut streets, Philadelphia, Pennsylvania; Captain Peter C. Hains, United States Engineers, Union Bank Building, Baltimore, Maryland; Major W. E. Merrill, United States Engineers, Pittsburgh, Pennsylvania, and from the undersigned.

REPUBLICAN STATE TICKET.

AUDITOR GENERAL.
DAVID STANTON.
SURVEYOR GENERAL.
ROBERT B. BEATH.

BONDS at Frankfort, 96¼.

PETROLEUM at Antwerp, 49.

GOLD closed in New York on yesterday at 112¼@112¼.

AFFAIRS in Paris daily become more distressing, but the end cannot be far off.

THE REPUBLICANS OF PENNSYLVANIA have spoken out in no uncertain way for President Grant for a leader again in the 1872 national election. Although some may regard this declaration of favor as premature, still it proves how much confidence is reposed in the hero-President by the masses of our people, and how well satisfied they are with his administration of the affairs of the nation.

THE PLATFORM OF PRINCIPLES laid down by the Republican State Convention is broad and liberal, and one which fairly demonstrates where the party stands on the important issues of the day. Each resolution has the right ring to it and will find support in the hearts of all good and true citizens. With such a platform and such worthy standard bearers as Stanton and Beath, we are ready for the fight, and nothing but a brilliant victory can come in the end to the Republicans of Pennsylvania.

THE CONSOLIDATED GAS COMPANY of Pittsburgh has at length been incorporated and is now ready to act. It is a singular feature of the bill, which is a good and liberal one, that all the thirteen incorporators are newspaper proprietors. These gentlemen generally mean business, and in this instance they are in good earnest, as their gas bills pinch them most terribly. It would be a consoling and gratifying thing for journalists to say that their light was cheap, in fact made from their own gas.

CORRECTION.—In our special dispatches yesterday, from Harrisburg, about the State Convention, it was stated that "J. S. Lambie was chosen door-keeper." This blunder came to us through the telegraph, and was not ours. The paragraph should read as follows: Mr. William Elliott, of Philadelphia, was chosen Chairman of the Permanent Organization. Among the Vice Presidents are P. C. Shannon, and Arthur Hobson, from Allegheny county. Among the Secretaries, Josiah Cohen and J. S. Lambie, of Allegheny county. James Bonebrake, Sergeant-at-Arms.

THE TAMMANY GENERAL COMMITTEE of New York, should have a first class leather medal for the preparation and adoption of the subjoined resolution, which, in reciting history, sadly neglects the English grammar:

Resolved, That the recent deposition of the United States Senate of Charles Sumner, of Massachusetts, from Senatorial dignities, defines to the American eye, with startling distinctness, the outlines of this tragic tableau. It is the 13th day of May, 1856. The curtain rises upon a Senate Chamber, a seated Senator, and a stricken blow. The 10th day of March, 1871, has come. Again the Senate Chamber, the seated Senator and a blow. Fifteen years have passed. The Senate house and the man the same. Say you who saw the deed, all else unchanged, how falls the blow of slavery, then, beneath the blow sped by vicarious vengeance now?

RULOFF.

Ruloff, the wonderful murderer, expiated his offense on the ignominious scaffold yesterday afternoon at Binghampton, New York. History has been furnished of late with no more singular phenomenon than Ruloff. His whole life appears to have been devoted to crime and science. He committed crimes of most horrid character not to advance science, and studied science not to help him on in crime. He was perhaps one of the most thoroughly educated men of the country and a philosopher of rare worth, and yet he prostituted all the lavish gifts of nature and sunk to the level of a monstrous brute in his transgressions against the laws of both God and man. He was a most singular exception to the general rule that criminals are ignorant and uneducated. Had any moral restraining element entered into his composition, he might have proved a blessing to society and left to the world a name bright with honor and distinction. As it was, the unfortunate man seemed impelled through life by an irresistible impulse to do wrong, and even on the scaffold, with the world fading from his vision and eternity opening, he refused to afford any outward sign of inward repentance, or to acknowledge that there *might* be a God from whom he should ask forgiveness. He was seemingly too proud to bend the human intellect to higher power, which his reasoning faculties failed to recognize, and passed down into death with stubborn doubt filling his heart. His sanity was questioned, but it is idle to think that the mind of the educated criminal was not sound, for its strength was shown in the marvelous philological work on the science of languages, which he wrote during his imprisonment, and of which he leaves fifteen hundred pages behind him as a legacy to scholars. Its publication will be anxiously awaited.

WORK TO BE DONE.

The ticket put forward by the Republican State Convention of Wednesday is a good and strong one, and cannot fail to receive the solid support and hearty endorsement of all members of the party. It is gratifying and encouraging to know that the utmost satisfaction followed the nominations, and that while some were naturally disappointed because of the defeat of their favorites, yet all accepted the ticket, and with hearty cordialty promised it the warmest support. That our candidates will be elected there can exist no doubt. They have within themselves the elements of success, and against the public or private character of either no word of reproach can be uttered. But it is not only their election we want next Fall. We want an old fashioned victory at the polls. We want Pennsylvania to roll up such a majority for Republican men and principles as shall prove beyond any doubt whatever that in the close following presidential canvass of 1872, she will be all right and determine the struggle in favor of our party. There is at the present time nothing to mar or disturb the harmony in the Republican ranks of the State, and if the proper exertions shall be made we can carry our candidates into office by a majority of at least twenty thousand. Work must be done. The only possible danger is that apathy or a failure to recognize the importance of the canvass, will prevail on our side while the utmost vigilance and activity will mark the campaign of the enemy. The Democrats are shrewd and prophetic enough to see that the great battle ground in the national election of 1872 will be Pennsylvania, and they will turn heaven and earth to secure it next Fall. If we had no other element to fight than the Democracy of our own Commonwealth, victory would be much easier obtained and more brilliant and decisive when secured; but we must not forget that men and means will pour in from the neighboring States to help secure Pennsylvania to the opposition, and that all sorts of fraud and corruption peculiar to that party will be resorted to in order to accomplish their end. With our State arrayed against Republicanism, the prospects for a national victory would indeed be anything but bright and rosy. But we are not fearful of such a result. The people of Pennsylvania can always be safely trusted and most especially in such an important crisis as the present. There are no signs in the atmosphere to indicate that they are willing for a change in the national government or to place themselves in the position of betrayers of the great Republican party of the land. They will be found all right at the ballot box and will proclaim to the world in the election of Stanton and Beath, that the spirit of loyalty and patriotism abides with them still, and that they are true and faithful to the eternal principles that have so nobly been upheld and carried out by the great Republican party whose record in the past is the best guarantee for the future that an exacting and confiding people may demand.

BOARD OF CHARITIES.

We have received the first Annual Report of the Board of Commissioners of Public Charities of the Commonwealth of Pennsylvania, including that of the General Agent and Secretary, Wilmer Worthington, M. D. The document contains a large amount of most interesting information concerning our charitable institutions, their history, management and condition.

The Commission was constituted some two years ago by an act of the Legislature. According to the provisions of the act, the Commissioners must, either in their own proper persons, or by the General Agent, visit all charitable and correctional institutions in the State once a year, examine the returns of the several wards, boroughs and townships, in relation to the support of paupers therein, and ascertain the number of births, deaths and marriages. They are also enjoined and empowered to visit all charitable and correctional institutions in the Commonwealth which receive State aid, once a year, and ascertain whether the moneys appropriated for their aid have been economically and judiciously expended, the objects for which they have been established are being accomplished, and the laws enacted for their regulation have been complied with. The Board requires the General Agent to visit and inquire into the condition of each of the county jails, or prisons, and alms-houses once in two years.

The work of the Board is one of great magnitude, but so far as in their power they, in connection with the General Agent, have performed it faithfully and well. During the past year the General Agent visited twenty-nine alms-houses, "and several other institutions" of a [illegible] lar kind. He also inspected forty-four [illegible] ty prisons, leaving twenty-three yet [illegible] visited. In accomplishing this wo[illegible] traveled over eleven thousand mil[illegible] made one hundred and thirty visit[illegible] impressions made upon him in [illegible] many cases were anything but agreeable. He says, that some of our county prisons and almshouses, and particularly "those apartments for the insane in many of the latter, are unfit for human habitation." Some of our jails and almshouses "are well constructed and judiciously managed, affording proper accommodation for the inmates, but the fact remains that others are miserable receptacles for human beings." It is strange that after all the protests that have been made against illy constructed and badly ventilated prison houses since the days of Howard, Dr. Worthington, who is a competent judge in such matters, should have to pronounce some of the jails and almshouses in the great State of Pennsylvania to be "unfit for human habitation."

There was a time, perhaps, when, even in countries enjoying a high state of civilization, many good people believed that prisoners and paupers were only thrown into jails and almshouses to die. They did not believe that culprits were incarcerated with the view of being reformed, but punished. Under such impressions it is not to be wondered at that no attention was paid to the Sanitary condition of their penal abodes. But during the last fifty and more years, a different opinion has obtained in this State and elsewhere. Imprisonment for crime has been looked upon in its only true light by a large number of philanthropists, as corrective and reformatory. The idea that prevails now is that culprits are to be reformed and reclaimed to society. In this only true view of the matter too great care and attention cannot be given to their sanitary condition.

The able report contains an accurate and authentic history of the foundation and condition of most of our State and other institutions. The Western Penitentiary of Pennsylvania was founded by authority of an Act of Assembly, approved March 3d, 1818, and entitled "An Act to provide for the erection of a State penitentiary on the public land near the town of Allegheny, opposite Pittsburgh, in the county of Allegheny." The Board of Commissioners was organized May 20th, 1818, and consisted of James Ross, Walter Lowrie, William Wilkins, David Evans and Dr. George Stevenson, who were elected by the Select and Common Councils of Pittsburgh to take charge of the work of erecting the building. A portion of the building was transferred to the Inspectors, and the first prisoner received July 21st, 1826. The whole building, as originally planned, was finished in November, 1827, and the Board of Commissioners of Construction was dissolved. The whole cost of the buildings up to the present time amounts to $519,866 54.

In the notice of the Allegheny County Jail, it is stated that it "was erected in 1868;" this must refer of course to the new wing.

The report is a very valuable one. It contains a great deal of very desirable information, and makes some practical suggestions, to which those having authority in such cases would do well to take heed.

We have no doubt that the Board of Public Charities, in connection with the different voluntary county prison associations, will do much to ameliorate the moral and physical condition of criminals throughout the State. And we may take occasion to say that we know of no gentleman who is better qualified to fill the position of General Agent than Dr. Worthington. He possesses all the qualifications necessary for the position to which he has been called, and has discharged its duties with fidelity and great success.

THE COAL TROUBLES.

It is a very difficult matter for outsiders to understand either the causes that have led to the prolonged strike in the anthracite coal regions, or what the probabilities for a resumption of work may be. Like much of the news that came to us during the late European war, we have to consider from what source come tidings of the coal troubles. The miners and the owners both have their own versions of things. In reviewing the present situation, the Scranton *Republican* of yesterday says:

"The most acute observer would be at a loss to determine at this time whether resumption is near, or still distant; the whole question appears to be in a complete muddle, and indecision, uncertainty and imbecility marks every movement. The whole difficulty may suddenly become unraveled to-day, or it may become still more muddled. The meetings held recently only make the matter more difficult of comprehension. It is evident that unless some decisive step is taken at the region meeting to-day, the suspension will remain for a time just what it has for months. If, as we suppose is the case, the delegates of the Delaware and Hudson and Delaware, Lackawana, and Western Companies are instructed to vote to-day against accepting the offer contained in Dickson proposition, they will, of course, carry the day against the delegates of the Pennsylvania Company. Then what follows? Another proposition from the men to the companies, which, ten chances to one, will also be rejected. A short time since the men proposed to go to work on the same terms on which the Wilkesbarre Coal and Iron Company was working. Then the companies offered ninety-three and a half cents, which amounts to the same proposition, and the men rejected it. The companies offered arbitration, which was rejected. Then the men offered arbitration, and it was rejected. Then the companies offered arbitration in lieu of ninety-three and one-half cents, and again it is rejected. What can be expected to result from such a policy. It looks more like child's play than an immense transaction involving millions of dollars on the one side and the welfare of thousands of laboring men on the other. The business interests of this city and Lackawanna Valley in the meantime are being ground to powder between the two mill stones, while enterprise is deadened, capital driven away, and an infamous name established for the community. Some persons feel convinced that the Pennsylvania Company will resume work at once. We feel less confident, but hope it may be so.

REPUBLICAN STATE CONVENTION.

Editorial Correspondence Pittsburgh Gazette.
HARRISBURG, May 17, 1871.

Never in the history of the politics of our noble old Commonwealth has there assembled a more intelligent, dignified and orderly convention of men than that which has just adjourned here, after placing in the field the standard bearers and the platform of the Republican party. This Convention was, to a much greater extent than is usual, composed of calm, dignified, quiet gentlemen, who offered not one single word that could not have been spoken any where else, and who seemed deeply, almost solemnly, impressed with the great and overshadowing responsibilities of their position.

"As goes Pennsylvania so goes the Union," is a proverb as old as our national politics, and the force of it was never more deeply implanted in the minds of our party's representatives, than it was at the assembling of this body to-day. The campaign of 1871 is only the skirmish for the possession of the outworks, which if well manned and judiciously supported, will undoubtedly control and sweep the field in the great struggle for the Presidency in the Fall of 1872. This feeling prevailed to-day, and every word and act showed that this above all others was no time to make any political blunders.

Both the temporary and permanent Presidents, as well as the sterling old patriot, Hon. Jno. Cessna, implied as much in their remarks to the Convention, and earnestly recommended calmness, consideration and wisdom in all that was done. Never have we seen any large body of strong minded men conduct the business for which they had assembled, with these [illegible] prov[illegible] s, and [illegible] could [illegible] State [illegible] r that [illegible] erfect[illegible] int of [illegible] seat contested, the business of the day was called for, viz: the nomination of candidates for the offices of Auditor and Surveyor Generals. Calmly, and with great moderation and dignity, the friends of the different aspirants arose and announced their names, and the Convention at once proceeded to call the roll of the delegates, each one when called upon arising in his place and announcing in a clear voice for whom he voted. In exactly fifteen minutes the roll was completed and the result announced, showing that Colonel David Stanton, of Beaver county, had a majority of all the votes cast, and was therefore the nominee for Auditor General.

Immediately after the announcement, the Convention proceeded to call for the names of candidates for Surveyor General, when the friends of the four candidates arose quietly and announced them. Letters were then read from Hon. Jacob M. Campbell, the present incumbent, and William P. Wilson, withdrawing their names from the list of candidates, and each couched in the warmest terms of loyalty to the party and its honored principles. After this, the delegates, as before, proceeded to vote, *viva voce*, and in a short time the result was announced, showing that Robert Bruce Beath had a clear majority of all the votes.

A committee was then appointed to wait upon these gentlemen and inform them of their nomination. They entered in a short time and impressed all present both with their appearance and afterwards by their remarks, that the selections made were good beyond a doubt. I forgot to state that after the announcement of the result in both cases, the nominations were made unanimous amidst great enthusiasm, and general good feeling, proving that no bitter resentments existed among the friends of the disappointed aspirants. In reference to General Harrison Allen, the defeated candidate for Auditor General, I desire to record that his dignified bearing throughout this conflict, and his cheerful aquiescence in the result, stamped him at once as a true gentleman, and endeared him to the hearts of all who saw him. I think I can venture to predict that he can afford to wait, as he has lost nothing in this contest, and even greater honors than this nomination could have given him, certainly await him.

Col. Russell Errett, the old (excuse me, I mean in politics) Republican war horse, and acknowledged champion of purity in politics, as Chairman of the Committee on resolutions, then came forward and read the platform as digested and agreed on, which was received with enthusiastic round after round of applause, each section as read being greeted with cheers, which made the old hall of Representatives ring.

At the conclusion of the reading, Hon. P. C. Shannon offered as an amendment to the ninth resolve, that "in General Grant we recognize our honored leader now, and point to him with pride as the proper standard bearer of our party in 1872." The Judge, in presenting his amendment, delivered one of the happiest impromptu efforts of his life, which was received with tremendous applause. One or two delegates opposed bringing the Presidential nomination into our platform at present, but the Judges' eloquent remarks, and those of Col. Errett and others, who heartily seconded him, had wrought the enthusiasm of the Convention up to such a pitch, that the amendment went through with a wild cheer, only one or two voices dissenting. The resolutions as amended were then adopted unanimously. After this a resolution was offered that the chairman of the State Central Committee should be appointed in the usual way, which called Mr. Mann of Potter, to his feet, who warmly and eloquently urged that inasmuch as the east and west ends of the State had been honored with the nominees, that the Hon. B. B. Strang of Tiogo, be selected by the convention as chairman of this committee. This brought others out who urged respectively the claims and fitness of Mr. Ketchum of Luzerne, and Col. Forney, of Philadelphia. The Convention very wisely concluded to make no appointment but referred the matter to the Chairman, of the Convention, in conjunction with the nominees, and authorized them to appoint the Chairman of the State Central Committee. After adopting a resolution of thanks to the retiring State officers, Messrs. Hartranft and Campbell, and giving three rousing cheers for the ticket, Stanton and Beath, the Convention adjourned. I close this letter as I began it by stating that my admiration for our grand old party, and its leaders, has been heightened by what I have witnessed this day. May the deliberations of its principles and policy always be entrusted to hands as able and wise, and may our future conventions always be characterized with the same degree of order and dignity that has been witnessed to-day. So shall our party continue to claim and hold the respect of all the good people of our State and nation.

L.

"*Ueber Land und Meer*," speaking of Bayard Taylor's "Faust" says: Those ill informed persons who are inclined to judge disparagingly of American literary efforts would do well to remember that the three best English translations of the three of the world's greatest poems have been made by Americans, "The Iliad," the "Divina Commedia," and "Faust" by Bryant, Longfellow and Bayard Taylor. There would have given lasting literary fame to these three authors, if they never had written a single original line.

THE RESERVES.

Their Annual Re-union.

We take the following from the Philadelphia *Ledger* of Wednesday the 17th inst: Yesterday being the tenth anniversary of the passage of the bill organizing the Pennsylvania Reserves, it was celebrated at Horticultural Hall. At 10 o'clock the members of the Association from various parts of the State were met by those residing in the city and marched to the hall, where General Barnes, of Pittsburgh, called the meeting to order. The Rev. J. J. Pomeroy, Chaplain of the Third Regiment, led in prayer. General Barnes then proposed Major General George G. Meade as Chairman. General Meade, before taking his seat, said:

Gentlemen of the Pennsylvania Reserve Association:—This is a great and unexpected honor. In the few remarks that I shall make I will apologize for not being here promptly at ten o'clock, which mistake arose out of ignorance on the subject. I consider myself as one of you, although but an honorary member. There are no associations connected with my services during the war more dear to me than those formed with the Pennsylvania Reserves. Because, is it not to them that I owe a great deal of my military success? Through your prestige I rose to promotion. I will not detain you any longer than to reiterate my gratitude for the honor you have conferred upon me.

Private Anthony A. Laws and Col. John H. Taggart were selected as Secretaries.

Letters were read from Governor Geary, General McCandless and Mayor Fox, regretting their inability to be present. The Association then adjourned for a short time.

The Hall was tastefully decorated with flags and banners, having upon them the names of the battle-fields in which the Reserves participated. The stage was set with tents, stacks of muskets, brass howitzers, regimental flags, &c., the whole presenting a handsome appearance. The portraits of ex-Govenor Curtin and Gens. John F. Reynolds and George A. McCall were hung in conspicuous places.

Among those present we noticed Generals Chas. Barnes, W. R. Hartshorne, H. G. Sickel, W. H. Ent. John, P. Taylor, Cols. Daniel S. Porter, G. H. Bemis, Robert Anderson, Wm B. Mann, Robert A. McCoy, Majors H. S. Lucas, J. R. Coates, Elbridge McConkey, John M. Pomeroy, Hon. Wm. McClelland, Capt. J. S. Haynes, Chaplain O. H. Miller, Capt. S. B. King, Dr. Ed. Donnelly, and Capt. Charles Brockway.

The Association, on reassembling, elected the following Board of Directors, for the ensuing year:

First Division—Maj. J. R. T. Coates, Wm. H. Turner, A. D. Ruhert.

Second Regiment—Private Charles Divine, Lieut. Daniel Craig, Private G. W. Mingus.

Third Regiment—Rev. I. I. Pomeroy, Lieut. Samuel Greffe, Captain Jacob Zeanhart.

Fourth Regiment—W. H. Billings, W. Ogden.

Fifth Regiment—Col. J. A. McFarren, Sergt. Jos. L. McPherson, Captain Harry Paxon.

Sixth Regiment—Sergt. O. F. Benson, Private Isaac Hartmann, Col. Dixon.

Seventh Regiment—Capt. John Jameson, Private W. H. Ryan, Private George Stewart.

Eighth Regiment—Corporal H. Sarke, Sergeant E. Abel, Colonel S. M. Bailey.

Ninth Regiment—Capt. Geo. H. Bonners, Capt. R. Taggart, Erastus Agnew.

Tenth Regiment—Capt. Geo. Norris, Captain E. H. Henderson, Captain J. B. Robison.

Eleventh Regiment—Colonel D. S. Porter, Col. Robt. A. McClay, Corporal Jas. J. Oatman.

Twelfth Regiment—Major A. G. Oliver, Private John Kelly, Major H. S. Lucas.

Thirteenth Regiment—Capt. James M. Welch, General W. R. Hartshorn, Private Wm. G. Addleman.

Artillery—S. K. McGinnis, C. B. Brockway, A. E. Lewis.

Cavalry—Gen. J. P. Taylor, Capt. Theodore Stuch, Chaplain J. H. Beale.

The Directors retired, and in a few moments returned and made the following report, through Captain George Norris, chairman of the Board of Directors, which was adopted:

President, Hon. A. G. Curtin; Vice Presidents, Col. Wm. R. Hartshorne, Major Jesse Merrill; Surgeon, J. Donnelly; Corresponding Secretary, Col. John H. Taggart; Recording Secretary, Charles Devine; Treasurer, Capt. Robert R. Smith; Orator, Hon. Capt. Wm. McClelland.

Wilkesbarre was selected as the next place of meeting. Adjourned until 2½ o'clock.

At the hour named the association assembled. General Wellington H. Ent then delivered an oration, saying:

Comrades of the Reserves: The friendships formed around the camp-fires on the Potomac, the Rappahannock, and the James find in this reunion a full expression. Your presence, the firm grip, the kindly greeting, are true reflections of that sympathy and manly affection which was generated in your breasts while together fighting the battles of your country, and which, while stimulating all the nobler impulses of the soldier, made you for the remainder of your lives friends.

It is a fitting reward for the privations, the hardships and sufferings of years spent in the field that a thrill of pleasure is enjoyed in the clasping of hands with another who has had a like experience. And it matters not in what field he served, for the men who fought in Virginia, the great Southwest, or along the coast of the Atlantic, were all actuated by an honest purpose, were, as soldiers, equally meritorious, and are to-day unitedly friends; and, paradoxical as it may at first appear, it is this regard for men who have faced the storm of battle which impels us to extend the hand of fellowship to the soldier who fought on the other side. If the friendly feeling which animates the breasts of the men who contended with each other in deadly strife on the battle-field shall pervade all classes, the nation will be as prosperous and powerful as the domain is great and its people chivalric.

After reviewing the occurrences of the war between France and Germany at some length, he concluded, saying:

Comrades, let us profit by the spectacle which France now presents to the world. After being conquered by the foreigner, compelled to cede large territory and to pay immense war subsidies she allows herself to become the prey of the politician, and is driven to the lowest stage of anarchy. Let us hope that the day is not far distant when peace "with nimble fingers shall stop up the brazen threats of war," and prosperity and happiness will again exercise their genial influences in the vales and upon the vine clad hills of France. But above all, let us shun the rock upon which her fortunes were wrecked. Let us insist that prudence, justice and firmness shall characterize the councils of the nation, that her rights as a nation shall be respected, that her honor shall be maintained to the full in the Cabinet, and then if under the providence of God, it shall again become our duty to take up arms, we shall do so with alacrity and strike with a power that shall be irresistible.

The members of the Association partook of a banquet at 5 o'clock in the lower room of the Horticultural Hall. Major General Meade presided, and after the cloth was removed, said we are all volunteers to-night, and we are not expected to be regular, therefore no toasts had been prepared. He had, however, been requested to propose the health of the Hon. A. G. Curtin, the President of the Association.

Mr. Wm. Moran responded in a brief and appropriate address, after which the health of General Meade, "the saviour of his country at Gettysburg," was proposed.

General Meade, in replying to the sentiment, thanked the Association for the kindness shown him on all occasions; he felt proud of the esteem of the Pennsylvania Reserves, for there was no organization during the rebellion that performed more gallant or greater acts, and none are more entitled to credit. When the bloody fights of that war are considered, there is no organization can show a record that will surpass the Pennsylvania Reserve Corps. At Gettysburg they lost 1,800 out of about 4,000 that went into battle—a loss of 45 per cent. The same gallantry was exhibited in other battles. The General, after referring in detail to some of the fights in which the Reserves were engaged, concluded by saying that it would give him great pleasure to meet, at any time, the members of the Pennsylvania Reserves.

Killed by a Chicken—Two Deaths from a Singular Cause.

The Williamstown (Tenn.) *Journal* of Thursday has an account of the death of Mrs. Sarah Johnson, of that county, which was caused in a very singular manner. Only a few days before her death, Mrs. Johnson, who was at the time in perfect health, went out into the yard for the purpose of separating a couple of chicken cocks which were engaged in a furious fight. She caught one of the cocks, and in so doing, was slightly wounded by its long, sharp spur or gaff. From this wound resulted lockjaw, which terminated in death. She was the wife of Mr. Claiborne Johnson, who has, for a long time, been a sufferer from consumption. The shock produced upon the already enfeebled frame, by the sudden death of his wife, was more than Mr. Johnson could bear. He commenced sinking at once, and two days after (the 6th inst.) he, too, died.

IN the last five years seven per cent. of those who have died in the town of Sharon, Norfolk county, Va., have been between ninety and one hundred years of age, and over twenty-five per cent. of the dead have been more than eighty years of age. From the official records it appears that the chances are better there to die of old age than of consumption. One-half of all who have died in Sharon this year (up to April 30) have been upwards of eighty-five years old, and recorded as dying from "old age."

TO RUPTURED PERSONS.

We have often said, and now repeat, that persons who have any rupture or condition requiring mechanical support, that there is no better place that can be found than that of Dr. Keyser, of 167 Liberty street. We have not only known rupture relieved, but we have seen crooked spine and varicose veins treated with the most perfect success at the same place, and we would advise our readers to cut this out and go no where else when they need such services, and we do so with the full assurance that they will get full satisfaction. The Doctor has had an experience of over thirty-five years in the treatment of rupture, and it would be more than singular if in that time he had not acquired an entire mastery over that terrible and now common malady. The Doctor is now called in all difficult cases of rupture. Remember his office, 167 Liberty street.

PERSECUTED ORGAN.
The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them and literally returned them upon the hands of those who administered them. They were forced upon it again and again until its solvent power was thoroughly drenched out of it.
The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.
The great modern remedy for indigestion and biliousness is Hostetter's Stomach Bitters, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.
It has been discovered at last, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.
Hostetter's Bitters meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.
In this country where the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease.

Johnstown Improved Hydraulic Cement,
This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement is greater than all others in this market, less freight and fresher, which is an important matter. Having but a short distance to ship we can therefore sell cheaper than any other in the market.

NEW YORK, May 18, 1871.

Gold strong and active again to-day at 112¼ 112⅜. Loans made at 1 per cent. for carrying and use. Clearances, $46,000,000; amount bid for at Treasury sale, $5,910,000; awards, $2,000,000 at from 111 90-100 to 112 1-100. Governments strong and higher. Stocks strong and active, with Erie, Lake Shore, Union Pacific and New Jersey Central as features; the remainder of the list has been firm, but only moderately active. The new issue of $3,000,000, &c., new stock, previously notified, which has been cancelled, stimulated an advance in this stock. Market closed buoyant, with transactions at higher figures in the cheaper stocks. Money easy at 3@4 per cent. State bonds dull and firm with limited business.

Sterling exchange 110¼.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 18, 1871.

ASHES—Common Soda Ash, 4¼@4½; refined do. 4¾@4⅞; Pearls, 9@9½; Pots, 7¾@7⅞.

APPLES—Market almost bare, and the demand is very light; occasional small sales at $5@7 per bbl.

BUTTER—The market continues dull and notwithstanding there is a slight falling off in the receipts, the supply is still largely in excess of the demand, and, in consequence, there is no improvement in prices. We continue to quote at 15@18 for good to strictly prime, and 20 for fancy—very few sales being made above 18c.

BROOM CORN—Is still reported dull but unchanged, 4@6 cts, as to quality and condition.

BEANS—Dull; $1,25@1,75 per bushel.

BEESWAX—Quoted at 28@30 cts.

CANDLES—Quoted at 12 cts for mould, and 19 for star.

CEMENT—Louisville, $2,50@2,75 per bbl; Johnstown, $2,25; Rosendale, $4,00@4,50; Calcined Plaster, $4,50; Land Plaster, $3,50@3,75.

CARBON OIL—Is quiet and unchanged—22 cts for standard brands, in a jobbing way, and 23 for small lots.

CORN MEAL—Is quiet; small sales, in store, at 85@90 cts per bushel.

CANNED GOODS—Steady but unchanged. Peaches, 2 lb cans, $2,00@2,50 per dozen; 3 lb cans, $3,00@3,50, according to quality. Corn $2,50@2,75 the outside figure for Winslow's. Tomatoes quoted stiff at $2,65@2,70.

COUNTRY BACON—Shoulders, 6@6½; ribbed sides, 7@7½c; clear sides, 8@8½c; hams, including sale 2,000 lbs shoulders at 6¼. Country Lard, 9@10¼.

CHEESE—Is coming in pretty freely and anything but strictly prime is hard to sell; we continue to quote choice Ohio Goshen at 15¼; and prime Ohio Factory at 14¼.

DRIED FRUIT—Peaches scarce and the demand is better; quarters, 10@11; mixed, 12@13; halves, 14@15; peeled, 16@17. Prime bright apples in better demand and scarce—may be quoted at 7 cts; common, in good supply and dull.

EGGS—With continued light receipts and an improved demand, the market is considerably firmer and fresh packed are now selling readily at 16c; and it is probable, unless there should be largely increased receipts in the meantime, that 17 will be realized within the next 48 hours.

FEATHERS—Scarce and in demand, with sales of No. 1 live geese feathers at 74@75—usual advance in a small way.

FLOUR—Is firmer and the demand, although entirely local, is improving. We now quote good spring extras at $7,00, and choice Minnesota baker's flour at $7,25. Good winter wheat flours are higher and we now quote at $7,00@7,25 for red, and $7,50 for white. Rye Flour, $6,00.

GREEN TRUCK—New potatoes lower, $7,00 per bbl. Peas sold to-day at $8,00. Cabbage, at $3,50@4,00 per bbl. Strawberries, 20@25 cts per quart.

GRAIN—Wheat is scarce and wanted, and all that offers is picked up readily at full prices, $1,40@1,45 for red and $1,50@1,55 for white; a round lot of strictly No. 1 would probably bring a cent or two more, but the offerings of this character are very meagre. Oats continue scarce and firm with a continued upward tendency; we continue to quote at 58@59 buying and 60@62 selling—small sales, in store, at 63@65. The market for Corn is devoid of anything particularly new or important, the receipts continue light and the supply here is not large, though the demand is not at all urgent; shelled is still quoted by the car load at 68@71 for mixed to prime yellow. There is considerable inquiry for small lots of ear corn, for feeding, and we are reported sales at 73@75, but it would be difficult to sell a round lot at anything above the quotations for shelled. Rye is quiet and unchanged at $1—but little offering and not much wanted. The receipts of Barley continue very light and our market is almost bare; we continue to quote nominally at 80@85 for spring and 90@95 for fall.

GROCERIES—Rio Coffee continues dull and weak in New York, the demand being unusually light and stocks are accumulating. Sugars, also, dull and weak with a drooping tendency. Molasses and Syrups, quiet and unchanged. Rice is still. Foreign Fruits weak and Prunes and Raisins lower.

COFFEE—Fancy Rio, 19; Prime, 18; Good, 17; Fair, 16¾; Roasting, 16@16¼.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; Loverings, 62; other grades, 45@55.

SUGARS—Choice New Orleans, 11¾; prime, 11¾ good, 10¾; fully fair, 10¾; Porto Rico Sugars, 10¾@11¾; Cuba, 10@11; Demarara, 11¾@12¾.

REFINED SUGARS—Hard Sugars, 14; A Coffee, 13; "B," 12¾; Extra C,12¾; C. yellow, 12¼.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair, $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 85cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c; Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9¾c; good, 9c.

SPICE—Grain Pepper, 22c. Pimento, 17c. Cloves, 20c. Cassia, 55c.

FOREIGN FRUITS—Currants, 11¾@12 cents. Prunes, 11c. Valencia Raisins, 13c. Layer Raisins, $3,60 per box.

HAY—Is scarce and higher; we are reported sales from country wagons at $15@24 per ton, as to quality. Baled is being sold on wharf at $15@18.

HUSKS—Quoted at 2¼@2¾ cts.

HIDES—Green salted (all weights) 10¾@11¾; green butchers (cow and steer) 7@8; green salted Kip 14@16; do calf, 16@18 Dry.

HEMP—Rough Kentucky, $175 per ton; dressed, 14 cts per lb.

LIME—Sales of Cleveland at $3,25 per bbl and eastern at $1,75.

MAPLE SYRUP—We can report regular sales at $1,50@1,70, in gallon jugs, as to quality.

MILL FEED—Sales from store, in a jobbing way, at $1,40@1,50 for Bran; $1,65@1,85 for ...dlings and $2,50 for oil meal.

...Lard Oil is still quoted at 93@95 for ... $1,00@1,03.

OILS—... per bushel.

No. 1. Linse... ...ts at 45@50 cts each.

PEAS—Sales $1... ...0 cts.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 18, 1871.

The oil market continues exceedingly quiet and is devoid of a single new feature worthy of a special notice. Notwithstanding there is little or nothing doing in either crude or refined, the general tone of the market is firmness, and it is said that there are more buyers than sellers at quotations; there is still considerable inquiry for refined but refiners here are unwilling, in view of the fact that there is little or no margin, to sell at the prices bid, while, on the other hand, holders of crude are unwilling to make the slightest concessions. While the situation, viewed in the most favorable light, is by no means satisfactory, hopes are still entertained that there will soon be an improvement, that the market will get into such a shape as will admit of a resumption of business, though the indications at this writing are by no means encouraging. There are several serious obstacles in the way, and until these are removed there is not much chance for a renewal of trade. Nor is the stagnation to which we have just referred, confined entirely to Pittsburgh. Dispatches from the oil regions report business there as here, very dull, and the advices from the east are of a similar character.

—Since the above was put in type we have the following sales reported: 1,000 seller until July at 11¾; 1,000 buyer until July at 12; 1,000 at Foster at $4,65; 500 at Brady's at $4,60; 500 at Parker, at $4,62¾; 1,000 do at $4,65.

CRUDE.

Not a single sale reported. Seller May quoted at 11¾@11¾; seller all year, 11¾ bid; seller until July, 11¾; buyer sametime 11¾@12; buyer all year 13.

REFINED.

May quoted at 24¼@24¾,—1,500 sold, in Philadelphia at 24¾; June reported at 24¾; July at 25@25¼; August 25¾@25¾.

PITTSBURGH WOOL MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, May 19, 1871.

The wool market is beginning to attract considerable attention, as might be expected, the views of dealers in regard to the future are somewhat conflicting. It is too early in the season to say anything definite in regard to the market, though the time is rapidly approaching when business will open up; it is probable that within the next few weeks our wool buyers will enter the field, and we may expect the usual number out from the east. It is too early to give quotations as there has been nothing done, as yet, to establish prices, but it is supposed that chance clips of fine fleece will open up at about 48@50, and average lots, in good condition, 45. Low and medium fleece, 42@45; tub washed and combing, 45@50.

We clip the following pertinent article from the Holmes Co. (Ohio) *Republican*: As the season for preparing wool for market is almost at hand, it is important that growers should give attention to the matter of caring for their wool in order that it should command the highest market price. All have noticed that those farmers who washed their wool the cleanest and put it up the neatest have commanded the best prices, for several years past. There is a growing disposition on the part of manufacturers to discriminate in regard to the condition as well as the quality of wool, and this feeling is likely to have an important bearing upon rates this season. There is also another reason why farmers should be more careful in getting up their clips. For several years there has been a disposition to breed heavy, greasy sheep, and negligence in washing. This condition of things has materially reduced the average price of our wool, and will continue to do so without it is speedily corrected. This is a question in which growers are mutually interested, as by improving or lowering the general character of their wools they can elevate or depress prices. This affects all, not only those who neglect their wools but also those who are more careful.

The Ohio *Cultivator* says about wool: "There never has been since 1862 such a complete drainage of this staple in the East as at the present time. Medium fleece is very scarce in all the sea-board and interior markets, and there is a general tendency upward in prices. Combing fleeces are also higher; in truth there has been a clean sweeping of both domestic and foreign wools. We do not venture a prophesy as to prices for next clip, but at present everything looks encouraging to wool growers."

RIVER NEWS.

The river rose several inches during Wednesday night and yesterday but was stationary last evening with 4 feet 10 inches in the channel. Weather clear and pleasant.

The Messenger, arrived from St. Louis, yesterday afternoon with a cargo of iron and clay.

The Exchange, at present laid up, will probably follow the Lorena to St. Louis.

Capt. Darragh, announces the Bellevernon for the Upper Mississippi—clear through to St. Paul. She is generally conceded as being one of the best stern wheel boats on the western water.

Robert Gorden and William Dever are the Juniata's pilots.

It is probable that the Brill will make another trip to Nashville: she is in all respects admirably suited for the Pittsburgh and Nashville trade.

The towboat Sam Brown, commanded by Capt. John Gordon, for many years connected with the Pittsburgh and Beaver and Wheeling and Parkersburg packets, arrived yesterday.

The Juniata from Cincinnati, and Granite State from Portsmouth, are the only arrivals we have to report. The Juniata departed again last night. She had a very good trip both ways.

The Brill, from Nashville, is due about the first of the week. Her manifest will be found elsewhere.

The Juniata reports having passed the Ironsides with a cargo iron ore, laid up at the brothers, waiting for water.

The Lorena, Capt. Sam Shuman is filling up steadily for St. Louis.

Capt. Tom Shuman is in town.

Capt. D. L. Hendrickson is first engineer on the Bengal Tiger.

—Wm. Marsh, engineer of the late steamer Belle of Alton, and at present under trial as an accomplice in the destruction of that steamer by fire on the 28th of March last, was admitted to bail by Judge Abell, of the First district court. It will be remembered that last week his preliminary trial came off before Recorder Weber, of the Fourth district recorder's court, and that functionary, owing, doubtless, to some lack of judicial knowledge, committed the accused without bail. Mr. Marsh's character and standing in the community, without taking into consideration the worthlessness of the evidence against him, were sufficient reasons for Judge Abell to grant him the privilege of bail.—*N. O. Republican.*

—A Louisville special to the Cincinnati *Commercial*, under date of Tuesday, says: The following towboats were to leave to-day: Stella, for Columbus, Kentucky, with 12 boats, containing 240,000 bushels of coal; J. H. Bigley, for New Orleans, with 20 boats, containing 400,000 bushels; Grand Lake, for New Orleans, with 14 boats, containing 280,000 bushels; making a total shipment South to-day of 720,000 bushels of coal. The tow of the Ajax, which left last evening, amounted to 32 boats, containing 540,000 bushels of coal. The last of the coal boats which can descend on the late rise were taken over the falls this evening. There will be coal barge water on the falls to-morrow, and a number of barges will be taken down.

—Lake Pontchartrain is now entirely filled with muddy river water. The yellow color extends out into the gulf, forty miles to the east and southeast, running out with considerable force. All the bayous leading from the lake look like the Mississippi, and Lake Borgne is pretty well tinged. By this some estimate can be formed of the extent of the great crevasse.

—Last Sunday, Louisville thieves made a raid on the boats at the wharf. The Nat. Williams, was first visited, and was robbed of two firkins of butter, and all the clothing on the boat. The thieves then went on board the Morning Star, and robbed passengers and boat of cash to the amount of $350.

—Dick Plain, second mate of the Kate Putnam, had his right leg broken above the ankle, Monday evening, at the cement mills, foot of the falls, by being struck by a barrel of cement. He was taken to the Marine hospital.

—A new snag made its first appearance on Tuesday morning opposite New Richmond, Ohio. It shows its double pronged head above water about 100 yards from shore, and 100 yards above the upper wharfboat.

—Rumor has it that Captain James Kerr, Jr., will come out as chief clerk of the magnificent steamer Great Republic.

—Three of the newly elected falls pilots intend building a first class tow boat during the fall for local work.

—A man named Burns, a roustabout on the Belle, fell overboard at Rome, Monday, and was drowned.

FOUNDERS, MACHINISTS.

GRATES. GRATES.

Keep Your Houses Clean, AND SAVE FUEL, BY USING THE Wellman Patent Reflector STOVE AND GRATE. Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

HOME NEWS.

Keeping a Disorderly House.—M. Wright and Tillie Reynolds were charged before Mayor Callow, yesterday, with keeping a disorderly house.

House of Refuge.—Wm. Buckley a lad sixteen years of age was yesterday sent to the House of Refuge by Squire Krehan of Birmingham, for vagrancy.

If you wish a reliable, impartial, uninfluenced report on monetary and real estate matters, subscribe for the *Real Estate Register*. Weekly. One dollar per year. 2

To Claremont.—Daniel N. Williams charged on oath of his wife, before Justice Krehan, of Birmingham yesterday, with disorderly conduct was sent to the workhous for thirty days.

Messrs. Ira B. McVay & Co., bankers, have removed to their elegant new banking house, corner of Smithfield street and Fourth avenue. They enjoy the fullest confidence of the business public. See card.

Sent to the Work House.—Charles Thompson was yesterday considered as entitled to a sojourn of thirty days at the Work House on account of conduct somewhat disorderly. He was before Mayor Callow.

Bawdy House.—N. Strickland made an information yesterday before Alderman McMasters, charging Mrs. Hughes, of Scott alley, with keeping a bawdy house. A warrant was issued for the arrest of Mrs. Hughes.

Stole a Game Cock.—John Langeheimer appeared before Esquire Heisel, of East Birmingham, yesterday and made oath charging Frederick Grinder with the larceny of a game cock valued at eight dollars. A warrant was issued.

New Insurance Company.—The Birmingham Insurance Company were notified yesterday that their charter had passed both Houses of the Legislature. Subscription books will be opened to-day at the German Savings Bank, Carson street.

Benjamin Leech appeared before Alderman Taylor yesterday and charged the driver of wagon No. 870 with driving into his wagon, breaking a spoke of one of the wheels, and otherwise injuring the wagon. The collision occurred on Penn street. A warrant was issued for the arrest of the reckless driver.

A Musician Arrested.—Edward Flannigan, a man who discourses music on bagpipes, was arrested on a charge of drunkenness. Yesterday morning he received a light fine, and his bagpipes were returned to him. He declared that if there had been any damage done to his instrument he would demand full pay. No damages have as yet been paid.

Bit His Lip.—Frank Hogel made an information before Justice Krehan, of Birmingham yesterday, charging Henry Wightman with assault and battery. The parties it appears got into an altercation in a drinking saloon which culminated in a set-to, during which, the prosecutor alleges, the accussed bit his lip, lacerating it dreadfully. Held for a hearing.

Abused his Wife.—Yesterday, for abusing his wife, Pat Driscoll was sent to the work house for twenty days. It appears that Pat was before the Mayor previously for abuse of his companion and was let off with a light penalty. When he got home it seems that he determined to "pay her up" for making an information against him, and he used her badly. The Mayor rewarded him for his perseverance and faithfulness to home duty.

From the liberal support extended to the *Real Estate Register* by our merchants and real estate owners, we are compelled to think it is appreciated. The low subscription price (one dollar per year) for a weekly paper of forty colums, should bring it before every one, from the poorest to the wealthiest of our citizens. If you are not now a subscriber, become one at once. You will not regret the investment. Office opposite the Postoffice. Get a copy and judge for yourself. 2

Yesterday John Buyson appeared before Deputy Mayor Nichols and preferred a charge against George Neeson for disorderly conduct. It appears that Buyson keeps a boarding house and that Neeson came there cursing and swearing and otherwise acting in a disorderly manner. It appears also, that when officer Costello attempted to arrest him, he resisted and in consequence a charge of assault and battery was likewise brought against him. He was fined fifty dollars and in default sent to the Work House for sixty days.

Returned Home.—The three boys named Edward Moffet, John Black, and Jos. Whitney, noticed yesterday as missing have returned home. They played truant on Tuesday morning, and instead of going to school went to the Pennsylvania Railroad Depot. They got into a car there, and before discovered by the officers of the train had ridden fifteen miles. They were put off and started to walk home but were unable to come so long a distance before nightfall. They slept in a barn and returned home on Wednesday evening.

Stampede of Prisoners.—Yesterday morning a stampede of prisoners occurred at the Workhouse. They had started out as usual in the morning to work on the brick kiln, and after commencing operations three of the men made an attack on the keepers. Others joined in the assault, it appeared, and the keepers were overpowered. The entire gang succeeded in making their escape before an alarm could be given. Superintendent Cordier came to the city and made information to the Mayor of the escape, and steps will be taken to arrest those of the gang who may come to the city.

Editors Gazette: Believing that Maj. F. A. M. Kreps would make a suitable representative in the Legislature, we suggest that he permit us to use his name as a candidate for Assembly from the North Side.

Major Kreps, besides being a most upright citizen, has considerable claims on the party. He has always been a consistent Republican, and during the entire war was a soldier either engaged in active service, or suffering in the prisons of the enemy. He entered the company of Capt. Rippey as a private and was discharged at the close of the war from Colonel Rose's regiment, with the ranks of brevet Major, without a stain upon his honor as a man or a soldier. Yours, &c.,
MANY CITIZENS.

Fifty Years in the Magic Circle. By Signor Blitz. Hartford: Belknap & Bliss.

There are few people in this country, or indeed, in the world, who are known by so many people as the merry Signor Blitz, and few people have so many friends and so few enemies. Almost more than a generation ago he came here delighting and astonishing our people and he has been coming at intervals ever since—ever charming and ever welcome. Now, we fear, he has said farewell to his admirers, both old and new, and basely abandoned Bobby and the stage. But in leaving us himself, the Signor has sent out a book containing his own life and adventures, written by himself, a great mass of jolly tales of his travels and tricks, telling how, with magic and ventriloquism, he made his merry way through life. The book cannot fail to be interesting to some and amusing to all, and in its fantastic binding will prove a pleasant souvenir of the kind-hearted and benevolent wizard. Mr. William Wilson, the well-known agent, has the disposal of this volume and can be found at No. 60 Water street.

An Elegant Gift.

The *Christian Advocate* of this week says: "Rev. E. J. Gray, pastor of Frostburgh station, near Cumberland, Md., in a letter to the New York *Advocate* relative to the new church enterprise under his direction, acknowledges the gift of a beautiful vase and fountain from Mr. Thomas Bakewell, the accomplished Superintendent of Christ church Sunday-school of this city, which graces the centre of the pulpit platform in the lecture room."

Rev. Mr. Gray, a little over a year ago, was pastor of the North avenue M. E. church, Allegheny. Frostburgh, his new charge, is one of the most flourishing in the Conference, and the many friends of the reverend gentleman hereabouts will be pleased to learn that he is enjoying the most gratifying prosperity and happiness in his new field of labor.

Accidental Death.

Coroner West yesterday morning held an inquest on the body of a German named Joseph Schupp, who died from injuries received by a bank caving in upon him. From the evidence it appeared that Shupp was engaged in excavating a cellar on the site of St. James Hall, on Carson street, between Nineteenth and Twentieth street. While at work a portion of the embankment fell and struck him. He was thrown with force against a cart, his head striking the hub. He was removed to his home, in the vicinity, where he died yesterday morning at three o'clock. Mr. King, the contractor, noticed the bank giving way, and called to the men to run. Schupp did not understand, and was struck by the falling earth. He was forty-five years of age, was unmarried and had been in this country but about thirteen months.

A verdict of accidental death was rendered by the jury.

Should the City of Allegheny Purchase the Allegheny Gas Works?

MESSRS. EDITORS:—This important question, will no doubt, be before the citizens and Councils of Allegheny, after the present year, for definite action. Under the charter of the State, to the Gas Company, during the year 1872, the city is empowered, should it desire to purchase the Gas Works at an appraisment therein provided for. This will be a popular measure with the people, and will, no doubt, be pressed upon Councils at the proper time, by a large and very influential number of citizens. Under the management of the city, there can be no doubt, the price of gas to consumers, can and would be furnished at a minimum cost, which like the supply of water, should be furnished at a nominal or cost rate. The healthy profits semi-annually divided by the stockholders of this corporation, proves that equal sagacity in its management by the city, light may be furnished at a very greatly reduced figure from the present. So, too, under the ownership and management of the city localities would be furnished with light which now are left to grope Egyptain darkness, until the cent per cent. is clearly visible to the very dim sighted Board of Directors. The late increase of capacity and capital stock of the Gas Company, may perhaps, embarrass this purchase by the city, but if the enlargement has been judiciously made and the capital stock honestly increased, there should and may be no difficulty. I hope this matter may be agitated, and thoroughly discussed, by the people and in their interest, the Councils of Allegheny take up the consideration of the subject at the proper time, in a practical and business like manner, to the end, that her people may have more, better and cheaper light.

SHEEP-SHEARING FESTIVAL.

The Annual Gathering of the Wool Growers of Allegheny and Washington Counties—A Pleasant Time—Award of Premiums.

The annual festival of the enterprising, intelligent and successful wool growers of Allegheny and Washington county, was held yesterday at the popular and well conducted hotel at Bridgeville in Upper St. Clair township. It was perhaps the most successful occasion of the character ever held under similar auspices and reflected the largest measures of credit to all concerned.

CLASS A.

Bucks, Merino—There were three entries. No. 1. John Gilfillan; No. 2. H. McMurray; No. 3, A. McMurray. No. 2 took the first premium, a chromo and frame, donated by Barker & Co., worth $10. No. 3 took the second Heazletine, prize American farm book by Allen, premium, an Scobie, Smith, Reed & Co. donated by

CLASS B.

This was for the best yearling bucks. There were but two entries. H. McMurray and A. McMurray. A. McMurray took the first premium, one pump stock costing $5, and furnished by Wilson & Co. For the second premium H. McMurray received one pair of shovel blades, donated by Woods & Brown, worth $2.

CLASS C.

This class was for the best ewes. Six gentlemen entered for the prizes—Wm. Gilfillan, Alex. Gilfillan, Arthur Long, Jno. Gilfillan, H. McMurray, A. McMurray and J. H. McMurray. H. McMurray took the first premium, a farm bell, donated by Hare & Son, Liberty street, worth $5. A. McMurray came in for the second premium, a book on farm implements, donated by Scobie, Reed & Co.

CLASS D.

Premiums offered for three yearling ewes. There were three entries—John Gilfillan, H. McMurray and A. McMurray. The first premium H. McMurray carried off, a buggy whip donated by E. Fry, worth $4 00. Second premium was awarded to John Gilfillan, one three-pronged hay fork, worth $1 00.

CLASS E.

Best Pen of Three Ewes.—Four gentlemen entered their names for the prizes, A. Watson, John Gilfillan, H. McMurray and A. McMurray. The first premium was carried away by H. McMurray, a double-shovel plow, donated by Hall & Speer, of this city, worth $10 00. Second premium, three wool sacks, donated by Barker & Killgore, worth $3 00, was awarded to A. Watson.

CLASS F.

Best Pen of Three Yearling Ewes.—Three entered the contest: John Gilfillan, H. McMurray and A. McMurray. The first premium was a clothes wringer, worth $8 00, donated by S. Hare & Sons. Second premium, a pair of patent sheep shears, donated by Young & Murphy, of this city, and awarded to A. McMurray.

CLASS G.

The best long wool, buck. But two entered for this, Alex. Gilfillan and Wm. Woods. Alex. Gilfillan took the first premium, a Garden plow worth $10,00 donated by Spratt & Johnston, Allegheny city. The second premium, a first class English scythe and snath by Hays & Getty was carried off by Wm. Woods.

CLASS H.

The best long wool yearling—buck. But one entered the contest, H. H. Murray, and of course he took the premium—five wool sacks, by Barker & Killgore of this city.

CLASS J.

Long wool ewes—Two entered the field and both won. The first. H. H. Murray, grain cradle worth $6,00 by McElroy & Miller. For the second premium Alex. Gilfillan received a pair of sheep shears worth $2,00 by Scobie Reed & Co., of this city.

CLASS K.

Pen of three long wool ewes. H. H. Murray being the only contestant, received for his reward an iron double shovel plow worth $8,00 donated by Z. F. Bartman.

CLASS L.

Best pen of three long wool yearling ewes. John Espy, Wm. Woods and D. C. Bowen entered their sheep. John Espy was the lucky man, and received a breakfast castor worth $18, donated by J. R. Reed & Co., Fifth avenue, jewelers. D. C. Bowen came in for the second best prize, a pair of plated sheep shears worth $3, donated by Young and Murphy. The display of sheep, as regards numbers, excelled any former exhibition, but we think there was a better quality of sheep at last year's shearing.

THE GREAT CONTEST.

After the awarding of the above premiums the great contest of the day, the shearing of two sheep in the shortest time and in the best manner, was announced. For this there were three entries, A. L. Matthews, John A. Logan and H. E. Riggles, of Canonsburg. The excitement, when the men were called to the stand, ran high, each one wanting to get hold of the smallest sheep. In order to have all things done fairly, George Y. McKee, one of the Judges, announced that each sheep had been numbered to correspond with numbers in his hat, and each man would draw two numbers and take the sheep to correspond with the numbers drawn.

The men being in readiness the word "go" was given, and at it they went. It was soon observed by the spectators that H. E. Riggles could shear all around the other boys. He came in ahead on the first sheep five and one-half minutes—time: nine and one-half minutes. Mr. Logan, who came next, won the second premium in fifteen minutes. Mr. Matthews appeared to be working up stream and made very poor time.

The second heat being announced, time was called by the judge, when Riggles and Logan went to work in earnest. Logan's friends claimed that his shears were dull and that he had the hardest sheep to shear on the first round, but it was soon discovered that Riggles was decidedly the fastest man, and in twelve minutes he finished his sheep, Mr. Logan making the same time on the second he did on the first—fifteen minutes. Mr. Riggles was warmly congratulated by his friends, and felt quite proud of his victory. A pair of sheep shears and three yards of cashmere cloth were offered as the first premium in this contest, and a buggy whip and watch chain as the second. This ended the contest of the day.

THE ATTENDANCE.

There were some five hundred in attendance, all of the male persuasion, the fair sex not lending the festival their smiles that are usually seen there. This was accounted for by the knowing ones that the dinner usually spread on this occasion was prepared by the ladies, and the amount charged for it given away in cash premiums. The managers thought they would change the programme and have the agricultural implement men donate some of their wares to be given away for premiums, which it will be seen they did, and had the dinner served at a Public House. This we desire right here to enter our protest against, and insist that the managers go back to the old style and by all means have the ladies present. What do the young men care about your sheep. They see sheep every day, many of them, more than they want, especially this time of year. What they want is the girls to be present and that they will have. The politicians, as usual, were there, but many of them found it up-hill work to electioneer. Some did get up their courage to shake hands with many of the good honest farmers and ask them now the old lady was and how the children were, and then drew out their cards and went to business, but most of them looked kind of "sheepish" and didn't say much. One enthusiastic individual, who had eaten too much dinner, was fortunate enough as he supposed to be introduced by a wag to several young men as the politicians of their township. After hand-shaking the politician asked the boys to go and see his buggy; the boys took, of course. Some time was spent in admiring the four-wheeled vehicle and its contents. After partaking of all that was to be found, the young man brought out his cards and handed them around, and a few moments naving been spent in glancing at each other the young men coolly informed the unfortunate that they did take a prominent part in politics, but they lived in Washington county and could do him no good.

While the shearing contest was going on, four boys, Chatour Matthews, S. G. Thompson, Jas. McMurray and H. Murray, aged respectively 10, 12, 13 and 14 years, entered the grounds each with a yearling lamb on his back, and announced their determination to show their "Paps" how to shear. A ring was formed and the boys went to work, H. Murray being the winner, finishing his lamb in 33 minutes, and Jas. McMurray second, time 40 minutes. The other two boys were working away when we left. Mr. J. G. Murray exhibited on the grounds two beautiful cashmere goats, but owing to some misunderstanding were not entered as he intended they should. Mr. Murray takes great pride in his goats, and well he may, for a finer lot of them can't be found in the State.

The members of the press were especially fortunate in meeting with our courteous and genial friend, John Gilfillan, Esq., who took charge of them and extended that hospitality for which he is so proverbial. At his elegant parlors the journalists were delightfully entertained with vocal and instrumental music furnished by his graceful and accomplished daughters and the Miss Fosters. The supper was all that could have been desired, and the reporters were very loth to bid Mr. Gilfillan and his hospitable family good bye, but his kindness and attention will long be kindly remembered by them.

BREVITIES.

METHODISTS are beginning to look forward to the camp meeting season.

ANOTHER heavy frost, yet it is thought not much damage has been done.

THE new Methodist Episcopal Church in South Pittsburgh, will be dedicated Sunday week.

THE city officers were like "Banquet halls deserted" yesterday, the officials being out "excursioning."

THE Hampton Battery Monument has arrived, and next week will have a permanent local habitation in the Allegheny Park.

THE License Board was not in session yesterday, on account of the many excursionists to Washington and the sheep shearing.

JUDGE COLLIER put in an appearance of the Court House, at the Methodist Conference. He is one of the leading laymen of the denomination.

SEVERAL new cars have been placed on the line of the Oakland Railway Company. Two additional cars have been placed on the East Liberty extension.

READ Mr. Bernard Gray's card on the East Liberty Stock Yards, in our advertising columns. His word is as good as gold, and he tells things in a straightforward, open manner.

OLIVER GRIFFITH, who fell from the roof of Kloman's rolling mill, died on Wednesday night. Deceased resided on Fortieth street, Seventeenth ward, and leaves a wife and family.

Two men engaged in a road view in Stowe township got into a discussion about the Mace-Coburn fight and were about to pummel each other when the other viewers interfered and separated them.

THE General Assembly of the United Presbyterian Church of North America will meet on the 24th inst., at 7½ o'clock, P. M., in the Second Church, Xenia, Ohio. The opening sermon will be preached by the Rev. J. R. Johnston.

YESTERDAY was ascension day, opened from the earliest ages as a strict holiday by the Catholic, Lutheran and Episcopal denominations and by the Greek Church. It is celebrated in commemoration of the triumph of our Savior over death, and the powers of darkness, and his glorious and triumphant ascent into Heaven.

The Prize Ring.

On Tuesday quite an excitement occurred over a quarrel on Forty-fifth street, Seventeenth ward, between a prominent bricklayer and a popular lumber merchant, which arose from a dispute concerning some lumber which the lumber merchant delivered to the bricklayer. After a few words they concluded to go into the ring, the bricklayer preparing by taking off his hat and coat and rolling up his sleeves. The lumber merchant, seeing his opponent preparing, prepared himself in like manner. By that time their wives, learning of the facts, repaired themselves to the scene to act as seconds. The lumber merchant, after throwing his hat into the ring, followed it, and was closely followed by the bricklayer. They commenced sparring, which continued for about half an hour, when the affair became monotonous, and was ended by the seconds, each of whom took her husband in charge and left the ring.

The President announced as a special committee on Annual Conference Journals, Messrs. Caswell, Swift and Robinson.

A special committee was ordered to consider a paper from the citizens of Adrian in reference to the change of place of holding the present session of Conference. J. Scott, J. Kost and T. F. Scott were appointed.

E. S. Hoagland read certain proposed changes in the Constitution and Discipline, which were referred to the appropriate committee.

A memorial petition from the North Carolina Mission Conference was presented by the Corresponding Secretary of the Board of Missions, R. Rose, and referred to the proper committee.

VISITORS.

G. G. Westwall, S. M. Hickman, T. N. Boyle, R. Morrow, J. W. Baker, R. Hamilton, I. W. McKeever, H. Palmer, J. D. Herr, E. K. Squier, J. Lewis, J. Hodgkins, and Mr. Hunter were introduced and invited to honorary seats.

On motion a committee of five, consisting of the gentlemen named, was appointed on the subject of female ordination: W. R. Parsons, E. Williams, J. M. Flood, J. J. Smith, J. C. Murphy.

T. McCleary, H. Miller, J. Horner, J. C. High, J. T. Riley and Wesley Smith, all of the M. E. Church, were introduced and invited to honorary seats.

ADRIAN COLLEGE.

J. S. Thrap, General Agent of Adrian College, read a report of the financial condition of that institution, showing a prosperous condition of things. This college, of which Asa Mahan, D.D., is the President, is the leading literary institution of the denomination.

Daniel Schindler, J. W. Rutledge, F. A. Day and G. G. Westfall were introduced and invited to honorary seats.

W. H. Bakewell was recognized as a delegate from the Michigan District.

The President made a request that all petitions, memorials, &c., be presented at the earliest possible moment to the proper committees, in order to promptness and dispatch of business.

AFTERNOON SESSION.

Reassembled at two o'clock, President Pierpont in the chair.

The opening religious services were conducted by Rev. J. J. Smith, of New York District.

Rev. Messrs. Walter Moore and R. M. Smith, of the Muskingum Conference, were introduced and invited to honorary seats.

THE MISSIONARY WORK.

Rev. Mr. Rose, Corresponding Secretary of the Board of Missions, presented a report, which showed encouraging activity and interest in the cause, and recommended certain changes looking to greater improvements in this department. The report stated that the Mission churches in the West were almost uniformly self supporting. In Iowa, Nebraska and Kansas the Church was growing.

The report was accepted and filed.

THE PUBLISHING INTERESTS.

Rev. A. H. Bassett, President of the Publishing Committee, presented a report showing a healthy financial condition of the Book Concern, and an encouraging increase in the circulation of the Church papers. Referred to Committee on Book Concern.

Rev. H. B. Knight was added to the Committee on Missions.

THE BOOK CONCERN AGAIN.

Rev. Dr. Flood presented a series of resolutions as the sentiment of the Ohio Conference asking that the location of the Book Concern be not changed from Springfield, Ohio, for the reasons that no inducements had been presented from other places, the Ohio Conference had given the most money toward the establishment of the Concern, and that a removal would be attended with great expense.

Referred to Committee on Book Concern.

Rev. Dr. Scott read a communication in relation to the printing of the *Recorder*, from certain persons in Cincinnati, who proposed to organize a stock company to be known as the Elm Street Printing Company, with a capital stock of $12,000, for the purpose of printing the *Recorder*, and one or more papers, and doing general job work. It was thought that by a consolidation of this kind expenses might be saved and the publishing of the *Recorder* made much less expensive.

Referred to Committee on Book Concern.

Dr. Collier offered a petition from the congregation at East Liverpool, Ohio, asking that the Church be transferred from the Muskingum to the Pittsburgh Conference. Referred to Committee on Boundaries.

Rev. Mr. Jordon presented a petition asking for the enactment of a law more clearly providing for the disposition of those members of the body who had lost interest in the Church, and yet who did not withdraw, and against whom no charges further than staying away could be brought. Referred to Committee on Legislation.

A LEGAL POINT.

Mr. Hamilton presented a resolution asking that some action be taken, whereby the change of the Methodist Protestant Church to the Methodist Church (the change of name) should be in all its steps more clearly explained, so as to show that the church was the same, but the name merely changed.

The gentleman explained that in several cases in court where church property had been in dispute, the Methodist Church as now constituted had lost the cases, because their opponents contended that it was not the old Methodist Protestant Church, and they (the Methodists) were challenged to produce an official record showing how the change was brought about, so as to still be the same old Methodist Protestant Church in fact, and only different in name. This record could not be shown, and the speaker contended it was an important matter which should receive attention.

Dr. Springer said when they changed the name of the church, they threw themselves out of the property. They could only get it by having the name confirmed by the Legislature.

Rev. Mr. Wheat of Gennesse said the position of the church he thought in reference to the change in its name was that of a lady who changed her name by marriage. She dropped the old name and took up the new, but that didn't affect her title to property, which she had owned previous to marriage.

Rev. Mr. Robinson of New York, said the Dutch Reformed Church in New York had dropped the first title, "Dutch" and had no difficulty about their property.

Mr. Murphy, of Iowa, suggested, as a "short cut," to avoid the difficulty, the going back to the old name, Methodist Protestant. There were many good old Methodists who would rejoice at *that* change.

The paper was finally referred to the Legislative Committee—Judge Collier being, on motion, added to the Committee to aid in the adjustment of the matter.

Adjourned with prayer until this morning at nine o'clock.

Meeting of the Society for the Prevention of Cruelty to Animals—Report of the Secretary, Mr. Cree, Relative to Operations of Eastern Societies—A Reorganization Necessary, Etc.

A meeting of the Society for the Prevention of Cruelty to Animals, was held in the parlor of the Young Men's Christian Association, Hon. Thomas M. Howe, President of the Association, in the chair: Thomas K. Cree, Secretary.

After reading minutes of the former meeting, the Secretary, Mr. Cree, presented the following report:

To the President and Officers of the Society for the Prevention of Cruelty to Animals:

GENTLEMEN:—In accordance with a resolution of a previous meeting, your Secretary visited New York and Philadelphia for the purpose of investigating the organization and working of the S. P. C. A. socities in these cities. We were most kindly received by the officers of the societies, and every facility afforded us in our investigations. In both cities the offices are in prominent locations, (on Broadway in New York, and Chestnut street in Philadelphia. Of the office of the society in New York, Mr Henry Bergh, President, and Mr. Campbell, the Secretary, devote their entire time to the work and receive no compensation. A clerk is employed in the office and numerous detectives in different parts of the city. In Philadelphia the President gives much of his personal attention to the working of the society. In addition a Secretary and one clerk are kept at the office, and one regular detective. The ladies' branch in addition to the lady officers, who are very efficient, employ a Secretary, a superintendent of the dog pound, and one detective. Any executive officer of the society is authorized to make arrests for violation of the laws pretaining to cruelty to animals.

We also met the President of the Massachusetts Society, Mr Geo. T. Angel, who has given himself for many years exclusively to this work, receiving no compensation for his services. The Society of which he is the representative is a very efficient organization.

A book of record is kept at the office, in which is entered any reported cases of cruelty, with detailed particulars, and after the case has been investigated a record is made of the result. Another book of record is kept in which is entered those instances in which the cases are carried into the Courts, with the result in each case. The detectives soon ascertain the sections of the city in which cases of cruelty are most common. They keep a watch over slaughter houses, stock depots and places where many horses are employed, where there are excavations being made, or steep grades.

In New York, Philadelphia and Boston the executive officers and police are in thorough sympathy with the objects of the society. Most of the cases of cruelty result from ignorance, and in such cases are frequently remedied on having attention called to the fact. Only in aggravated cases, or those in which the offense is persisted in, is prosecution resorted to. In New York during the last year over three hundred cases were prosecuted successfully, and in Philadelphia over two hundred, conviction followed in almost every case. The income of the New York society last year was $15,000; expenses some $6,000. In Philadelphia the expenses of the ladies' branch was almost $9,000; of the men's society almost $4,000.

The Ladies' Board in Philadelphia has an invested fund of $8,000; the men's $15,000, and in New York a legacy of over $100,000 has recently been left to the Society. The Society in New York has erected twenty public drinking fountains for men and beast, and the societies in Boston and Philadelphia have also followed in the same direction. We had opportunities in New York to see the practical working of the system, and after a thorough examination of it are satisfied that it can be carried out successfully in Pittsburgh, meeting as it does a great self-evident public want. The success of the Society depends entirely on the efficiency of the executive officers, aided by an enlightened public sentiment. We would recommend the employment of an energetic Secretary; one fully in sympathy with the object of the Society and for the present one detective, with the expectation of increasing the force as the importance of the work is developed. Also, the opening at the office of books similar to those in use in New York and Philadelphia. Your Secretary is so impressed with the importance of the work, and the necessity for efficiency in the office of its Secretary, (whom it is proposed to make the chief executive officer,) and so deeply interested in the object of the society that he is very reluctantly compelled to decline the highly honorable position to which you have elected him, feeling that a pressure of other engagements will prevent his giving the time and attention necessary to make it fulfill the high expectations of its friends and the humane ends sought to be attained.

Respectfully,
THOS. K. CREE, Sec. of S. P. C. A.

On motion, the report was accepted.

The Secretary reported that the act of incorporation had passed both houses, but a certified copy had not been received.

After a free discussion of business pertaining to the employment of a Secretary and a reorganization under the charter, which was taken part in by Messrs. Clarke, Barr, Hopkins and Park, on motion the Secretary was authorized to procure a certified copy of the charter and make such changes as it might necessitate in the by-laws, and report at a subsequent meeting, to be held on the call of the President.

On motion, the meeting adjourned.

DECORATION DAY.

Meeting in Allegheny Last Night—The Citizens Invited to Turn Out—Business to be Suspended—Arrangements for the Procession.

Last night a meeting of citizens was held in the Common Council Chamber City Building, Allegheny, for the purpose of making arrangements for the turn out of citizens on Decoration Day.

The attendance was not large, but considerable interest was manifested.

The meeting was called to order at eight o'clock, when, on motion of Mr. Megraw, Mayor Callow was called to the chair, and Mr. W. B. Rodgers appointed secretary.

The President stated the object of the meeting.

Mr. Pentecost moved the appointment of a committee of five to make arrangements for the citizens to participate in the exercises.

Mr. Hastings thought this was proceeding rather prematurely. He thought the matter should be discussed and a free expression of opinion obtained before appointing a committee.

Mr. Claney moved to amend by appointing a committee on resolutions, which was adopted and Messrs. Claney, Hastings, Pentecost, Megraw and Boyle, appointed by the chair.

Mr. Glenn moved that a committee of three be appointed to confer with the executive committee of the G. A. R., with a view of arraigning that there might be no conflict with the arrangements which have been made. Carried, and Messrs. H. McNeil, Wm. Paul and George Parkins appointed by the chair.

Mr. Claney, chairman of the Committee on Resolutions, now presented the following:

Whereas, The 30th day of May has been set apart by the Grand Army of the Republic, as a day to be observed in the decoration of the Graves of our Fallen Heroes. And *whereas*, The citizens of Allegheny county have erected a monument, to perpetuate the names of the gallant dead, and it is proposed to dedicate the same to their memory, on Decoration Day. And *whereas*, It is the duty of all good citizens to manifest their appreciation of the services rendered by the departed defenders of our flag. Therefore, *resolved*, That we request a universal observance of the duty by a suspension of all business, and that we endorse the action of the Grand Army of the Republic in appointing the Mayor of Allegheny, Chief Marshal of the Allegheny Division of the procession.

Rev. Mr. Boyle was called upon and made a few remarks in favor of the report, which was then adopted.

The President stated that resolutions were well enough in their way, but if not carried out were of no account. He hoped the meeting would take some definite action.

Mr. Patterson moved the appointment of a Committee of five on Finance, the greatest element needed to make the matter a success.

Mr. Hastings wanted to know what the money was needed for. Was it to get carriages to haul the citizens in? [Laughter.] He didn't see the need for money, as the recommendation was that the people should turn out and all business be closed; more than that could not be asked.

Mr. Patterson was astonished that a public man should ask what money was needed for in such a matter. There were many old citizens whom it was desirable to have out, and for whom carriages would have to be provided; the gentleman (Mr. Hastings) himself might ride in one of those carriages. (Laughter). Then there was a band to hire and—a little money generally would be useful.

Eventually the resolution was amended to admit representatives from each ward, and the following were appointed:

First Ward—S. Smith, R. White. Second—Robt. Dilworth, Wm. Graham. Third—S. Hastings, J. Huckenstine, George Girst, J. Hoehaly. Fourth—A. Patterson, H. McNeill, N. B. Hogg, H. Ahlers, John Metz. Fifth—Wm. Heagy, Chris. Hoch. Sixth—George Parkins, James Grenet. Seventh—G. Wettach, Adam Weise. Eighth—Capt. J. Reed, George Moul. Ninth—Roland Jones, James Shipman. At large—Adam Reineman.

After some further discussion, the Finance Committee were instructed to place all money collected in the hands of the Chief Marshal, who should expend it, under their direction, for such part of the procession as was assigned to the citizens of Allegheny.

The meeting then adjourned.

Subsequently the Committee organized, with Mr. Hugh McNeill as Chairman, Mr. A. Patterson, Secretary, and Mr. Samuel Hastings, Treasurer.

Amusements.

OPERA HOUSE.—Mr. Bandman and his wife appeared last night in "Hamlet." The house was poorly filled, the performance was indifferent and mediocrity, and another nail was driven into the coffin of the New Opera House.

Next week the clever and fascinating actress and gymnast, Mlle. Marie Ravel, will appear for a brief engagement. This will be her first appearance here for three years, and as she has always been a great favorite, will doubtless be warmly welcomed by her many friends and admirers. She introduces a new play, in which tight rope walking, sword combats, etc., make up the attractions, forming a neat and chaste performance.

TRIMBLES VARIETIES.—Fred. Aims benefit was a bumper, but not more so than he deserves as a spirited caterer for the public. Fred. has proved himself able to fill the position which he holds as manager of the Varieties. Whenever he receives any compliment he but receives his just desert. It is a pity however that he allows political mountebanks to use the occasion of his benefit for their insane gymnastics.

ACADEMY OF MUSIC.—Carncross and Dixie played to a large house last night. The performances were excellent. This troupe is decidedly the best that has visited the city for many years, and their acts, singing and in fact their whole bill is first class. The stay of the company is limited to to-night and to-morrow, and those who fail to visit the Academy will miss a treat.

Alleged Outrage.

Yesterday morning a little girl, aged about fourteen years, named Mary Elsner, appeared before Mayor Callow and charged a man named William Falbaber with committing an outrage on her person. The outrage is alleged to have been perpetrated on the Perrysville Plank Road, near Flocker's rope walk. The little girl stated that while walking on the road a short time before dark she was seized by Falbaber, who threw her shawl over her head and dragged her to a strip of wood near at hand, and the offence was there committed. She stated that her assailant left her lying insensible, and it was with difficulty she managed to reach home. Mayor Callow issued a warrant for the arrest of the accused.

WESTERN CROPS.

THE Black River Falls (Wis.) *Banner* says "The farmers in Jackson county who sowed wheat the first week in April are now happy. Those who have not yet got done sowing feel sad. It has been the worst season ever known in this region for getting in spring grain."

THE Peoria (Ill.) *Transcript* of the 13th says: "Wheat and oats look very well, but will not be ready to cut for a long time yet. Rye and some winter wheat have headed out, and will be ready for harvest ere long. The farmers all over the country will probably finish planting corn this week. The first planted is up and looks well. The chances for good crops of all grains were never better, unless the frost or something else puts in an appearance when it is not wanted. There was an alarm when the small grain first came up, that the country would be covered with chintz bugs, but only a few have been discovered, and the damage from them promises to be very slight. If everything ends as favorably as it commenced and has continued so far, the farmers will have a rousing crop."

THE St. Louis *Republican* of the 15th says: "Following the first flattering advices of the season concerning the growing grain crops of the West, come now to us occasional reports of damage to wheat planted in bottom lands in several localities in this State and in Illinois; particularly, as we get it by direct information, in the low lands of the southwest portion of Missouri and in certain districts of Southern Illinois. The cool weather which prevailed last month had also undoubtedly the effect of checking at the time the sprouting and the growth of corn, which effect, however, the recent rains and prevailing warm weather must soon overcome. But while these unfavorable casualties have visited some localities, in general the promise of abundant crops still holds good. Our Western exchanges generally report needed and copious rains, and the beneficial effects arising from them.

THE San Francisco *Bulletin* of the 10th says: "It is now evident that the rains which may fall after this date will not help the grain crops materially, although the pastures would be freshened, and there would be some augmentation of the hay crop. A large number of cattle and sheep have been driven off to the mountains, and we hear that great numbers are still moving in the direction of Nevada. These will be saved and will augment the resources of our meat market. But thousands of cattle will be left to take their chances on the dry plains, where now there is hardly enough food to keep them from starvation. These, without other care, will die before the next rainy season. A great many cattle, now in tolerable condition, will be sold for slaughter, which, in a good season, would have been kept over. There will be a material reduction in the number of horned stock in this State during the present year. Next spring look out for high priced cattle. Hay and feed will command high prices, and the extra cost of keeping cattle and horses will then swell the figures. The hay crop in the coast counties, although less than usual, will be increased by the short grain fields which will be cut for hay; and two or three showers during the present month would add materially to the bulk of hay and feed. When the hay harvest is over we shall find probably a larger yield than is now predicted, but partly at the expense of the grain crop. Those who predicted that California would again be overrun with cattle will find that they have missed the mark. Next spring the stock of cattle in California will be less by some hundreds of thousands than it was a year ago."

Murder and Robbery in Texas.

The Houston *Union* says: "A correspondent from Texas informs us that two men were murdered in Jackson county on the night of the first instant, John McIver, the Sheriff, and an old man by the name of Thompson. Thompson lived some fourteen miles from Texana by himself, except a black woman and boy, who lived in the kitchen near the main house. The Sheriff was in that part of the county attending to some business, and stopped to stay all night with Thompson. The black woman says some men, five or six in number, came to the house and inquired if any one was there. She told them that Mr. McIver was in the house. They inquired which room he was in. They entered the house; she heard a pistol shot and old man Thompson begging for his life, saying he would give them all his money, and wanted time to pray. One of them told him that he didn't want any such d—n foolishness. She heard another pistol fire, and heard nothing more of Thompson. A few minutes after they came out and set fire to the house, which was burned down. The bones of the two men were found the next morning. The men, when they first came up, inquired where Thompson kept his money. McIver was some sixty odd years old, and Thompson seventy-two.

Horrible Tragedy—Two Men Poisoned.

A horrible accident occurred at or near Brownsville, Pettis county, resulting in the death of two men under most painful and distressing circumstances. One of the deceased parties, Thomas G. White, formerly lived in Sedalia and was well known there, but for some time past has been engaged in merchandising in Brownsville. A few days since an acquaintance of his stepped into his store with some packages in his hands among which were a bottle of corrosive sublimate and one of brandy, which he had just purchased at a drug store. He invited White to drink and handed him the bottle, as he supposed, containing brandy. White drank and handed the bottle back. He immediately discovered that some mistake had been made, but before he could speak the other man took a draught from the same bottle. It was the corrosive sublimate. In great terror both men seized such remedies as they could and made every effort to counteract the poison. All efforts, however, were of no avail. One of them died in a few hours, and White, after lingering several days in great pain, expired on the 9th inst.—*St. Joseph Gazette.*

Birmingham, P., F. W. & C. R. R.
GRAND PUBLIC SALE.

On MONDAY, May 22, 1871, at 11 o'clock, there will be presented to the lot buying public one of the finest opportunities for advantageous purchase. This property is situated at Birmingham, a station, five miles from Allegheny, on the Pittsburgh, Fort Wayne and Chicago Railroad, at which ten trains arrive and depart every day. The lots range from 25 to 100 feet in width and 150 to 250 feet in depth. They are close to the station, are finely situated, command exceedingly fine river views for miles up and down, and are just the thing for families wishing to secure a homestead at the lowest possible price. They will be sold without reservation. Here is an unequalled opportunity. Every sensible householder should seize it. One visit will convince you of the desirable character of this location. Free tickets both ways will be issued at the Federal street depot by the 10:20 train. Lunch provided on the premises. Now is the time for every prudent man to buy a lot. Bring your wife along. The sale being positive, a deposit will be required on every lot.

PROPOSALS.

DISTRICT OF NEW ORLEANS,
PORT OF PITTSBURGH, May 1st, 1871.

NOTICE IS HEREBY GIVEN THAT sealed proposals, accompanied by proper guarantees, according to forms to be furnished on application at this office, will be received there until 12 o'clock meridian on the FIRST TUESDAY IN JUNE NEXT, for the supply of the marine hospital near this city, with the articles of subsistence, &c., enumerated in said forms. The quantities stated are estimated with reference to the number of patients in the hospital, but the United States reserve the right to take more or less of said articles, and to substitute one article for another, as the exigencies of the service may require. If the articles delivered at the hospital are not, in the judgment of the surgeon in charge, of the best quality, and adapted to the hospital, he will be at liberty to reject the same, to purchase other articles instead, and to charge the contractor with any excess in the cost over the contract prices. The United States reserve the right to accept the proposals for the whole or any portion of the articles specified.
my12:s11 FS THOMAS STEEL, Surveyor.
